As you may know, Democrats in the United States Senate recently blocked a law which would have imposed sanctions on the Russian Nord Stream 2 pipeline, which many believe threatens European security. Do you believe sanctions on Russia, like those on the Nord Stream 2 pipeline, should be imposed by the U.S. government?
Now I am going to show you statements regarding the developing situation in Ukraine. For each one, tell me if you agree or disagree with the statement.

Biden’s mismanagement of the Afghanistan withdrawal has emboldened countries like Russia and China to be more aggressive.

If President Biden fails to unite our European allies and form a coalition to protect Ukraine from Russian invasion it will further reduce American leadership on the global stage.

The United States should evacuate all US personnel and citizens from Ukraine by any means necessary.

If Russia invades Ukraine, the US response must be swift and forceful to show we will defend global security.

A Russian invasion of Ukraine is inevitable, and President Biden is taking the appropriate steps to limit the fallout.
