As you may know, Russia has begun moving troops into Ukraine. Which statement do you agree with more even if neither is exactly right?

The situation in Ukraine is, at least partially, the result of weak policies from President Biden like lifting sanctions on Russia’s pipeline, dragging his heels on funding Ukraine, and failing to stand up to Putin over cyberattacks on the U.S.

The situation in Ukraine is the result of Vladimir Putin’s ambition, and should not be blamed on President Biden at all.

Funding the Government
Thinking about the upcoming Legislation in Congress which will fund our government for the rest of the year, please tell me if you agree or disagree with the following statement. It is important that a bill to fund our government gets bipartisan support, even though it may not be the bill either party would write alone, because a government shutdown isn’t good for anybody and we need to keep good government programs like our military funded.

Which statement do you agree with more even if neither is exactly right?

(Some/Other) people say the proposed Gas Tax Holiday is nothing more than a political stunt for the election, and it is more important to pass real policies to deal with inflation and high gas prices.

(Other/Some) people say the proposed Gas Tax Holiday is a small but important step to address the real challenges Americans are facing.
