THE BIDEN ADMINISTRATION

Thinking ahead to the next Presidential election, do you think Joe Biden has earned another term as President or will it be time to give someone else a chance in 2024?

President Joe Biden campaigned in 2020 on a “return to normalcy” and vowed after winning he would usher in “a time to heal” as a nation.

In your opinion, do you think President Biden is...

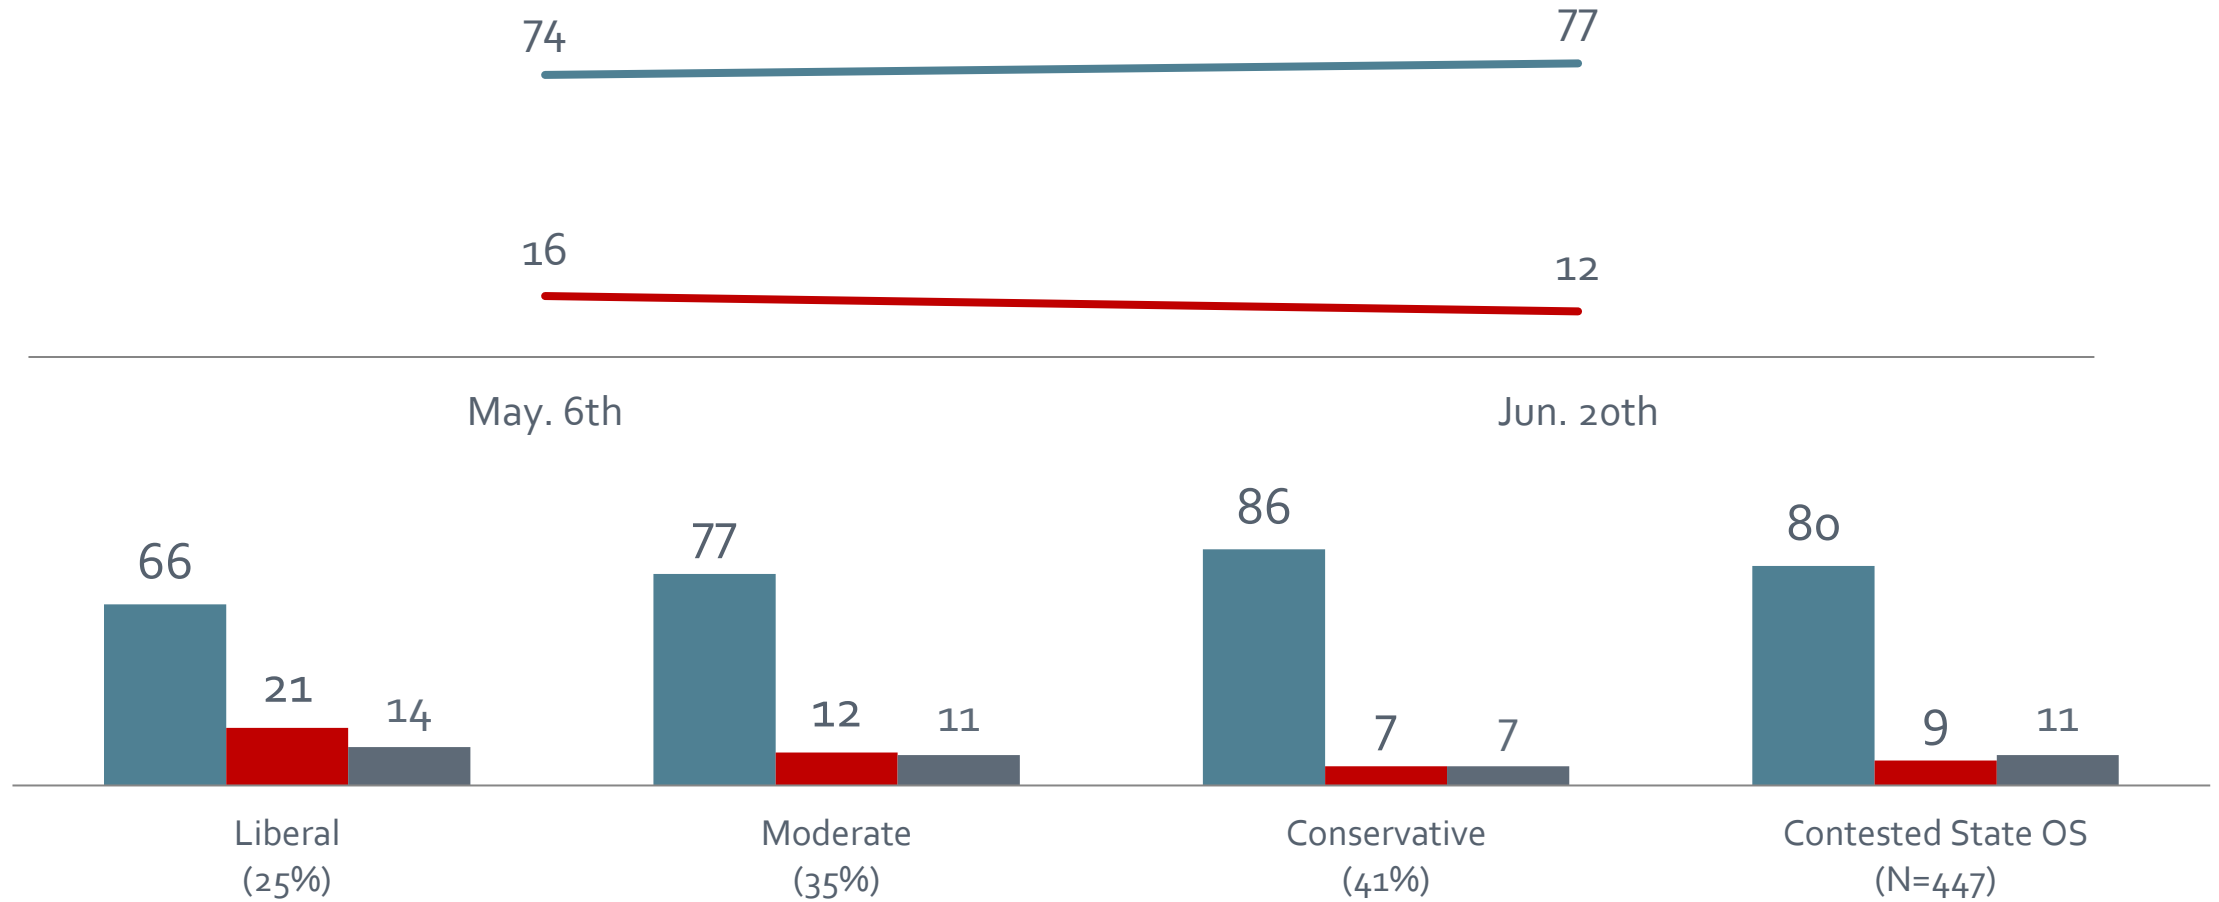

ECONOMIC OUTLOOK

RECESSION

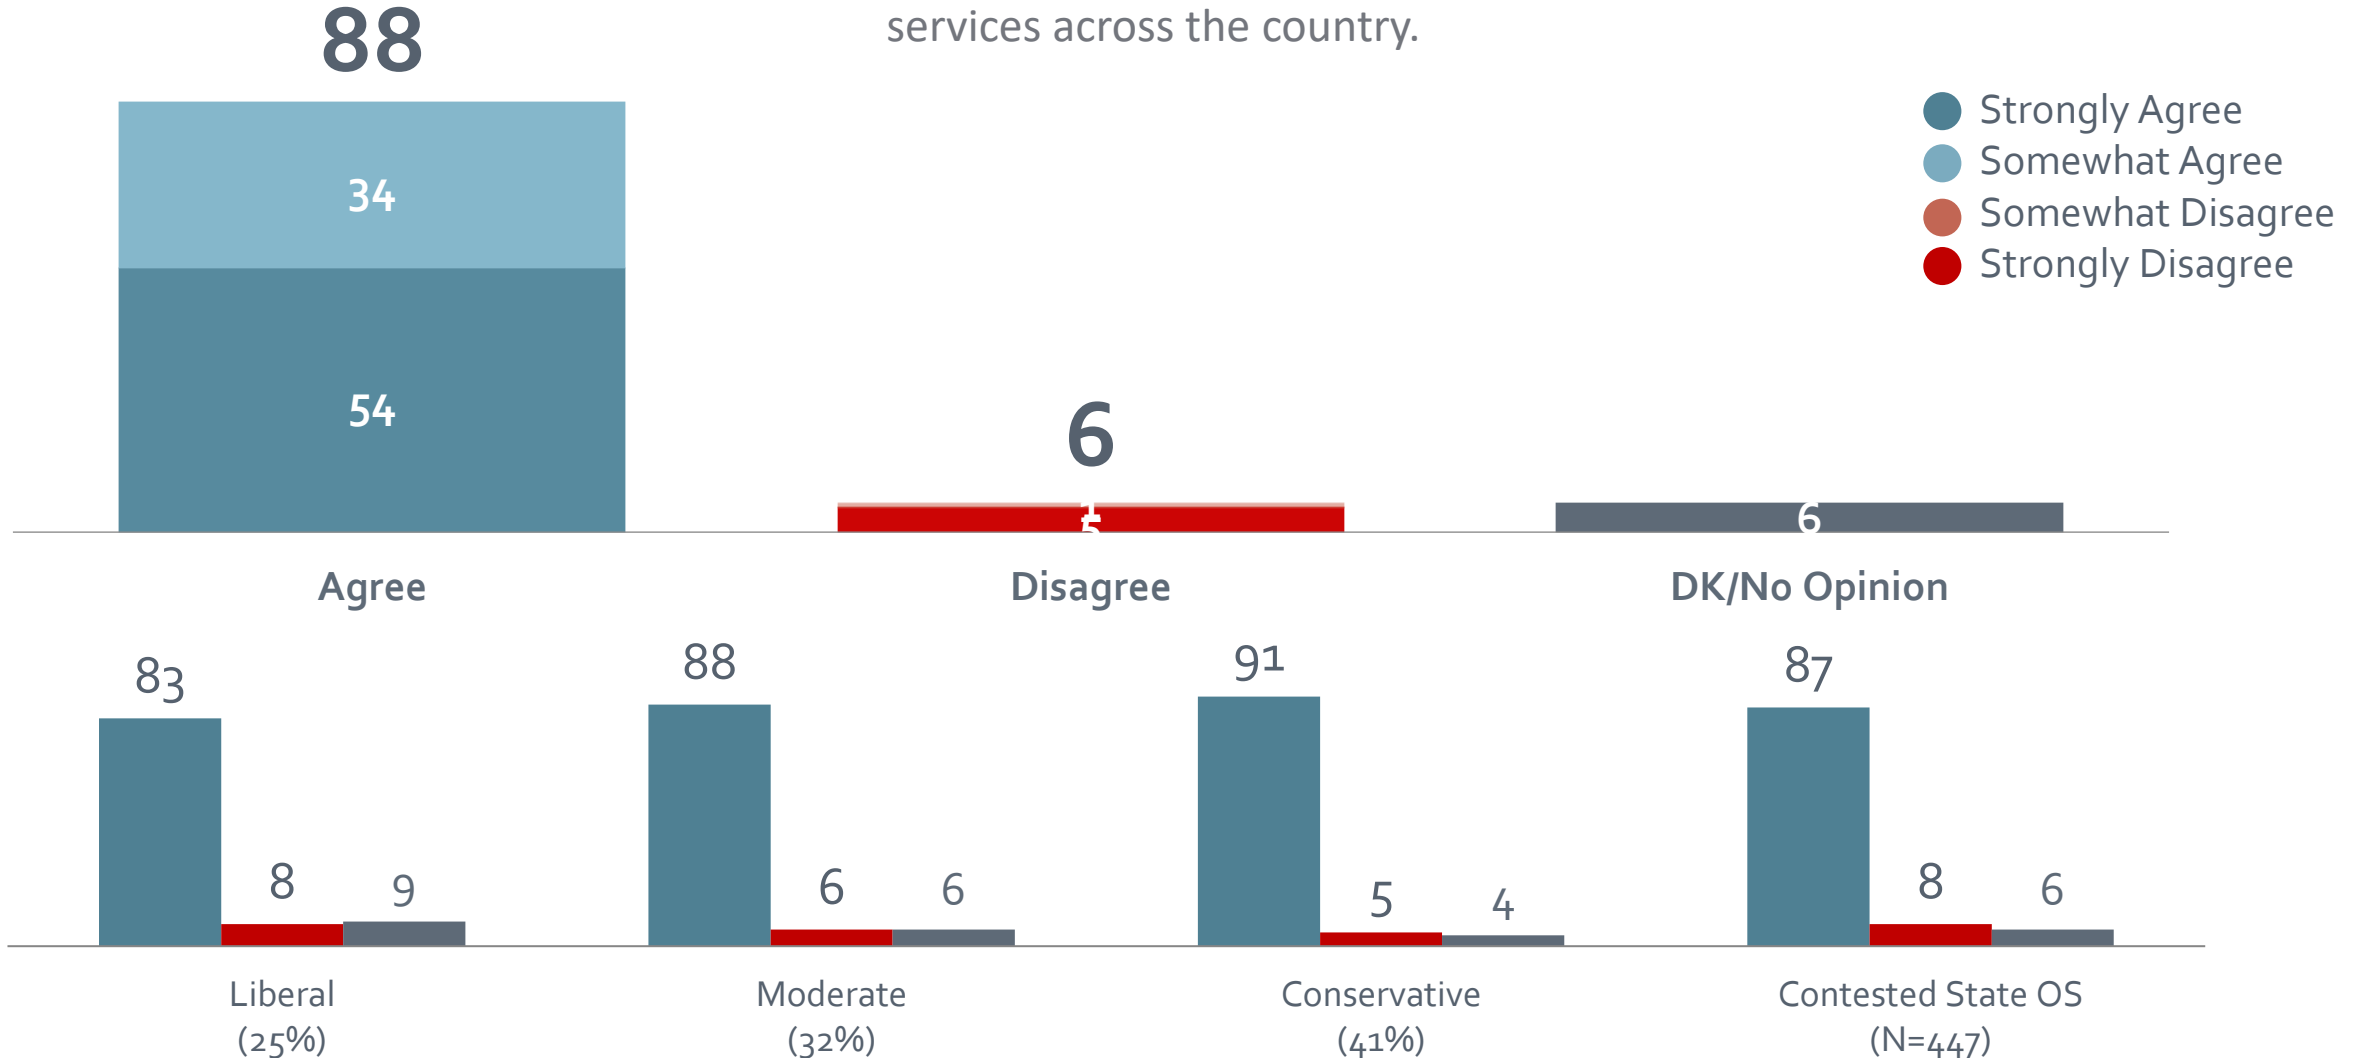

Do you believe the United States is heading toward an economic recession?

RECESSION CAUSE

Please tell me if you agree or disagree with the following statement.

If we do have an economic recession, it will be because of the record high inflation raising the cost of goods and services across the country.

- Not vacationing this summer
- Planning to vacation, but will do a smaller trip than I otherwise would have
- Planning to vacation as I would have any other summer

ECONOMIC OUTLOOK

- Better
- About the Same
- Worse

INFLATION BLAME

Thinking about inflation overall, in your opinion, which of the following contributed most to inflation?

- President Biden's \$1.9 trillion "American Rescue Plan"
- COVID and supply chain issues
- Corporations charging higher prices
- A strong economy

Thinking about inflation, and current bills being discussed in the Senate, do you think now is the right time to pass more spending bills?

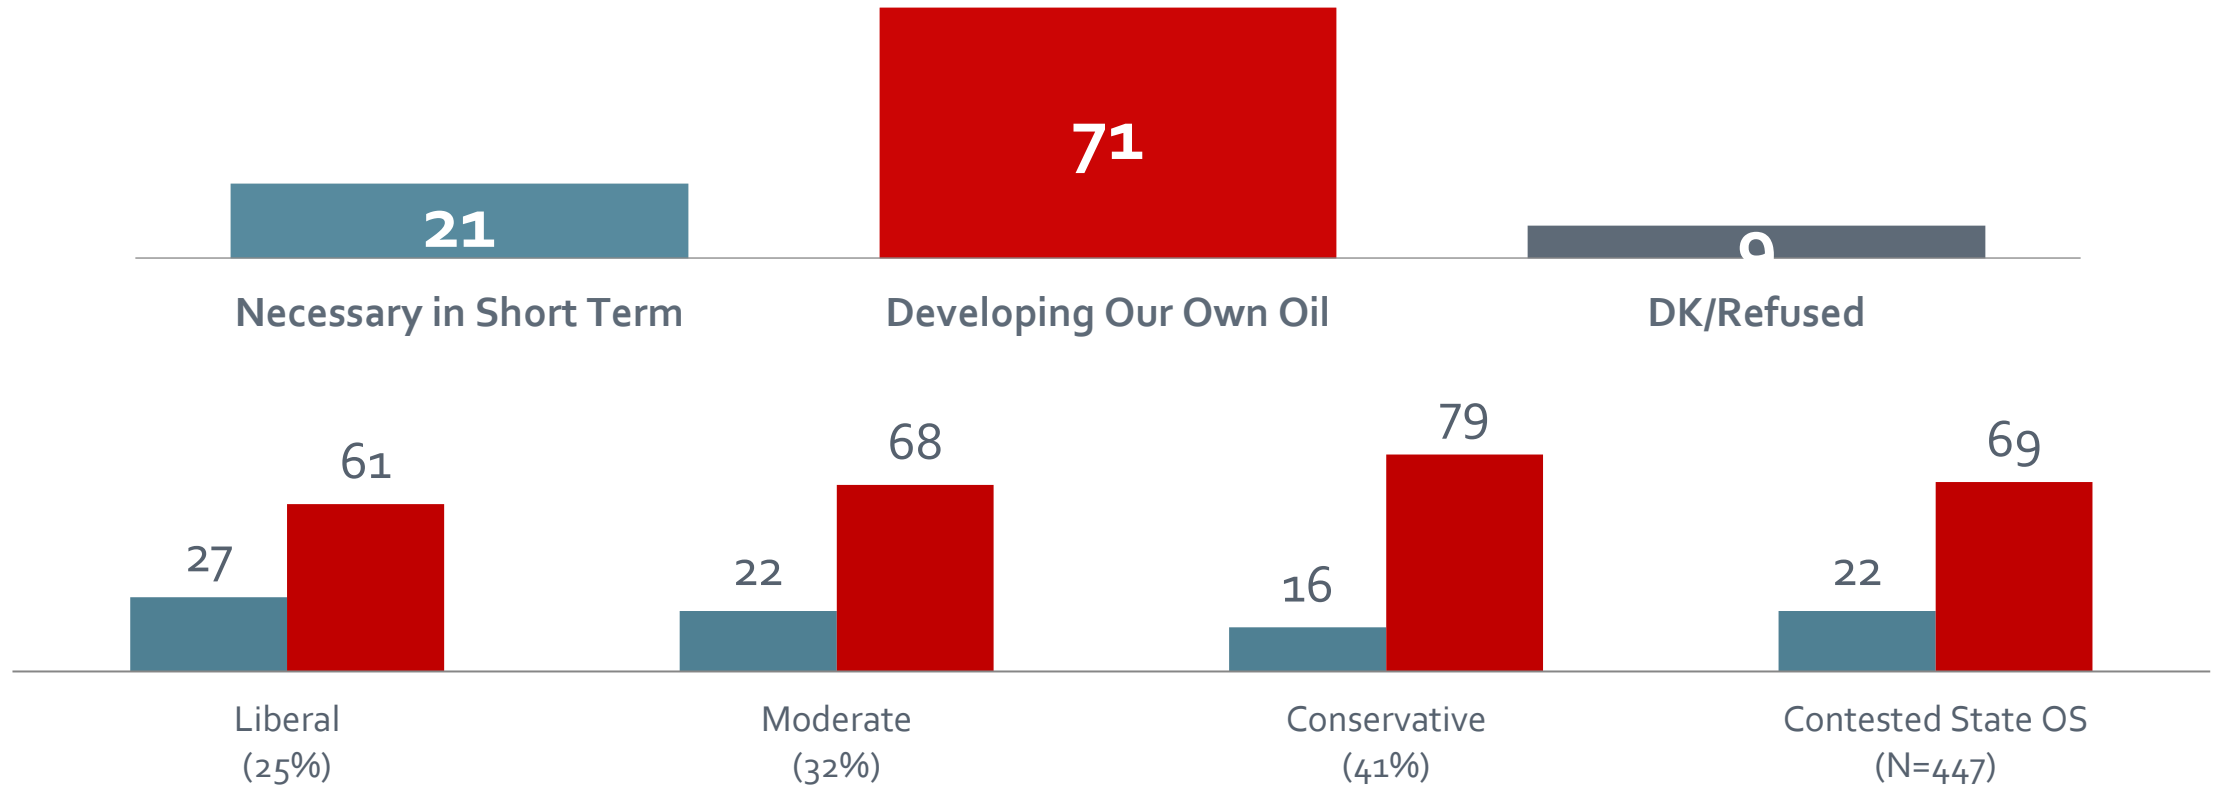

ENERGY / GAS PRICES

President Biden will be visiting Saudi Arabia in July. The White House has said this is a meeting to discuss many topics. Republicans have said Joe Biden is going to beg the Saudis for more oil.

Which statement do you agree with more even if neither is exactly right?

Buying oil from hostile countries is necessary in the short term, even if those countries don't share our values.

We should invest in developing our own oil reserves to become energy independent, and should not be begging other countries for oil.

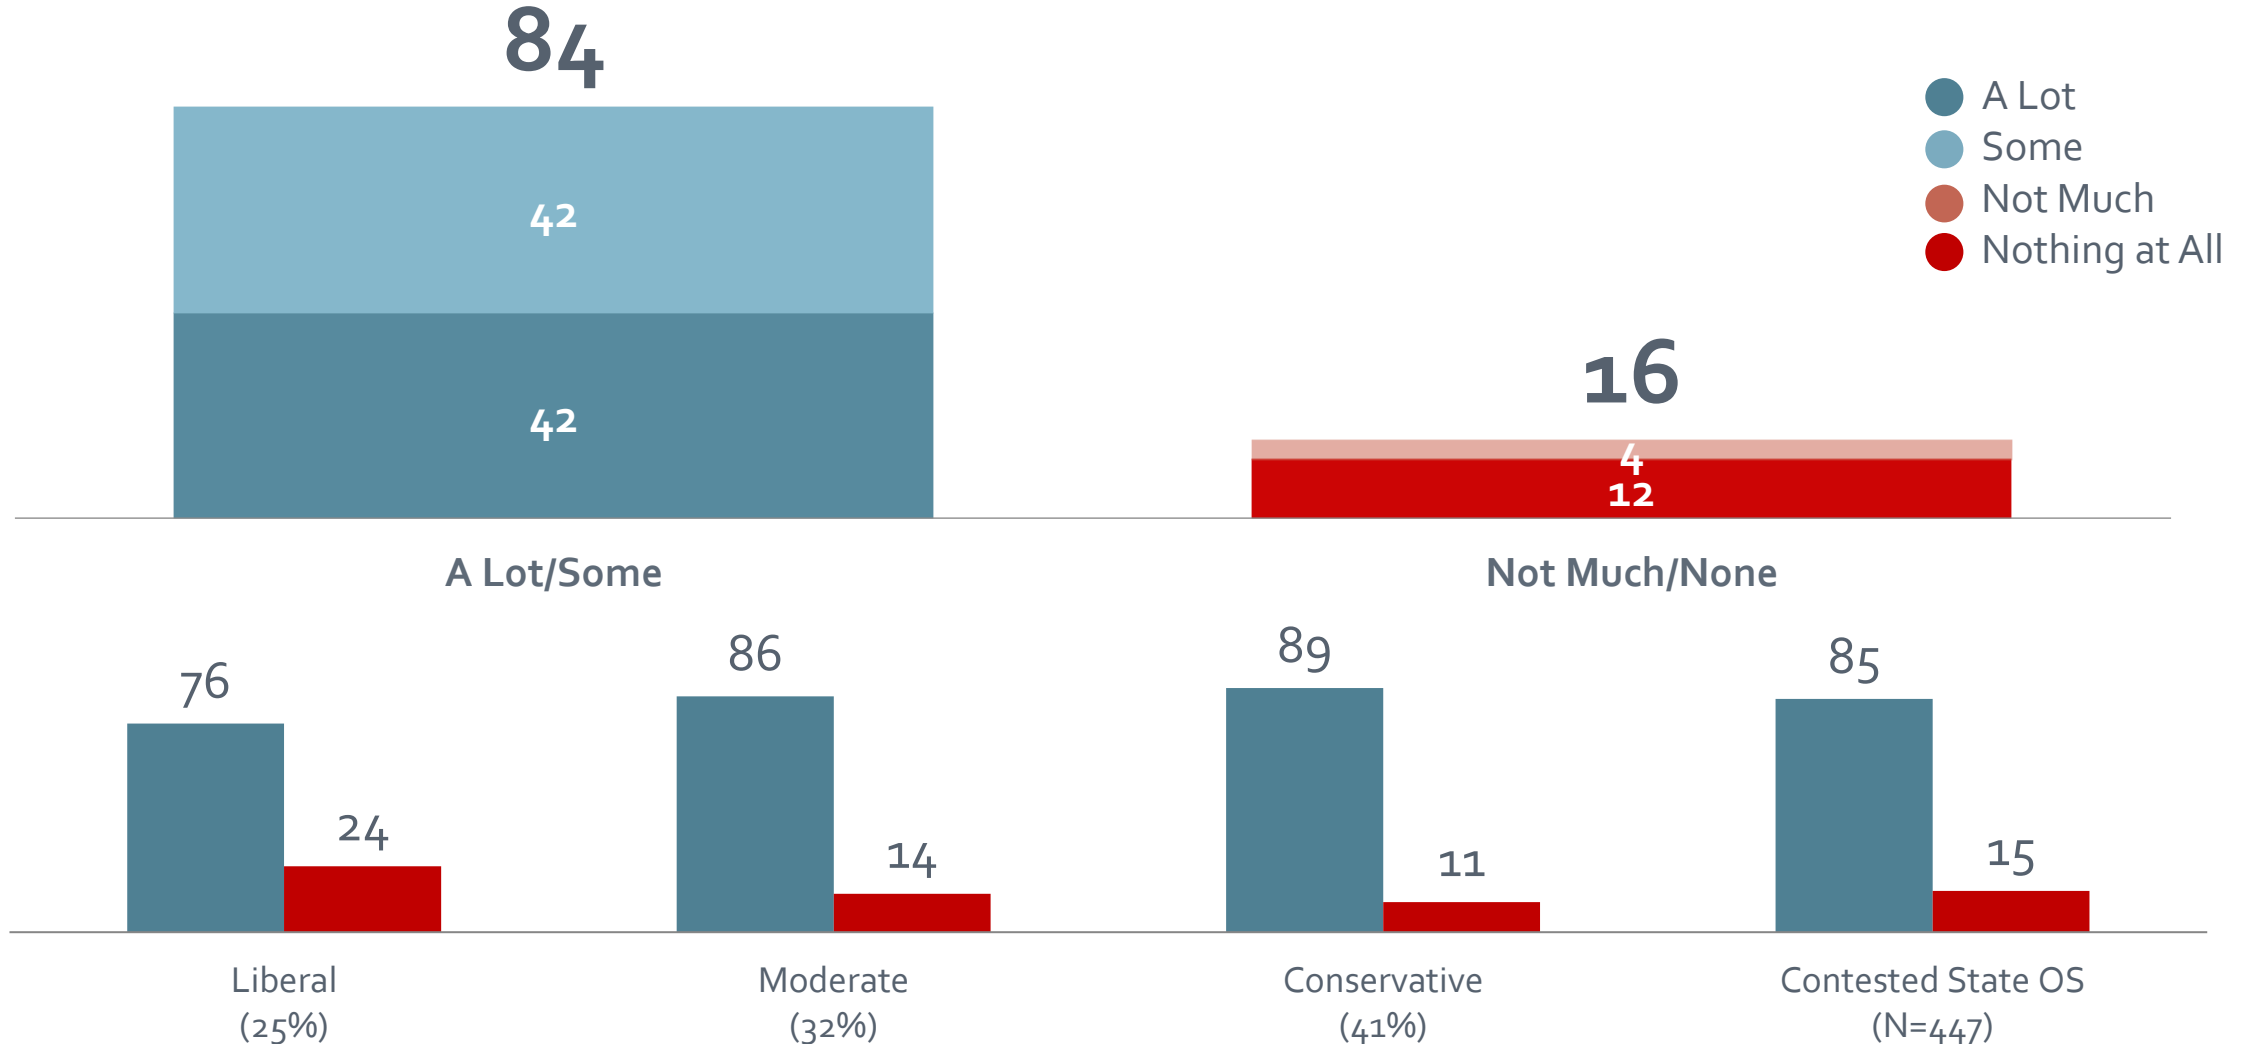

BABY FORMULA SHORTAGE

BABY FORMULA SHORTAGE AWARENESS

How much have you seen, read, or heard regarding a national shortage of baby formula?

Which statement do you agree with more even if neither is exactly right?

The baby formula shortage is, at least partially, the result of policies from President Biden and the Democrats like the government keeping formula manufacturers closed after they were certified as safe.

The baby formula shortage is the result of general market forces, and should not be blamed on Democrat policies.
