SECOND AMENDMENT RIGHTS

RIGHT TO OWN A GUN

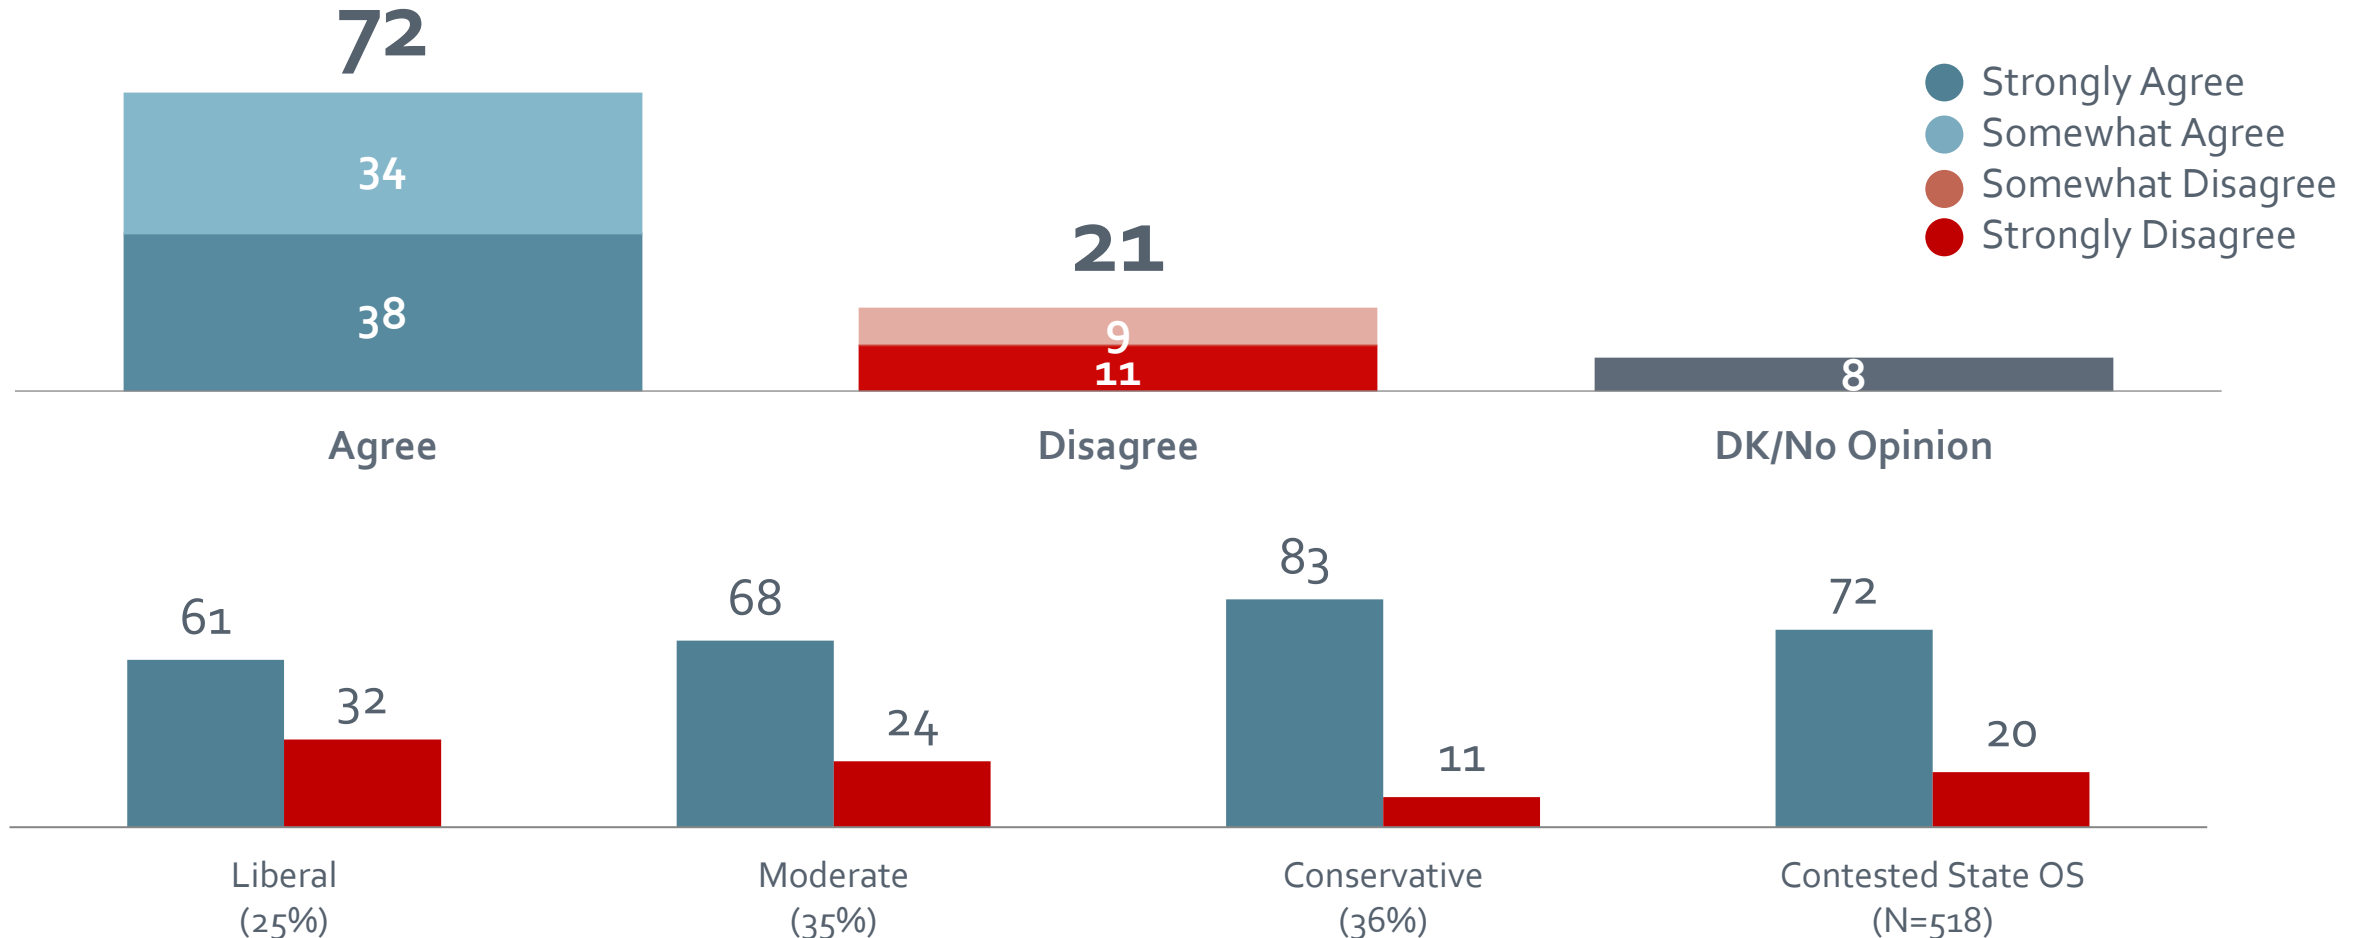

Please tell me if you agree or disagree with the following statement. "Any American, who is not a convicted felon or has a dangerous mental illness, should have the right to own a gun."

ADDRESSING SOCIAL ILLS

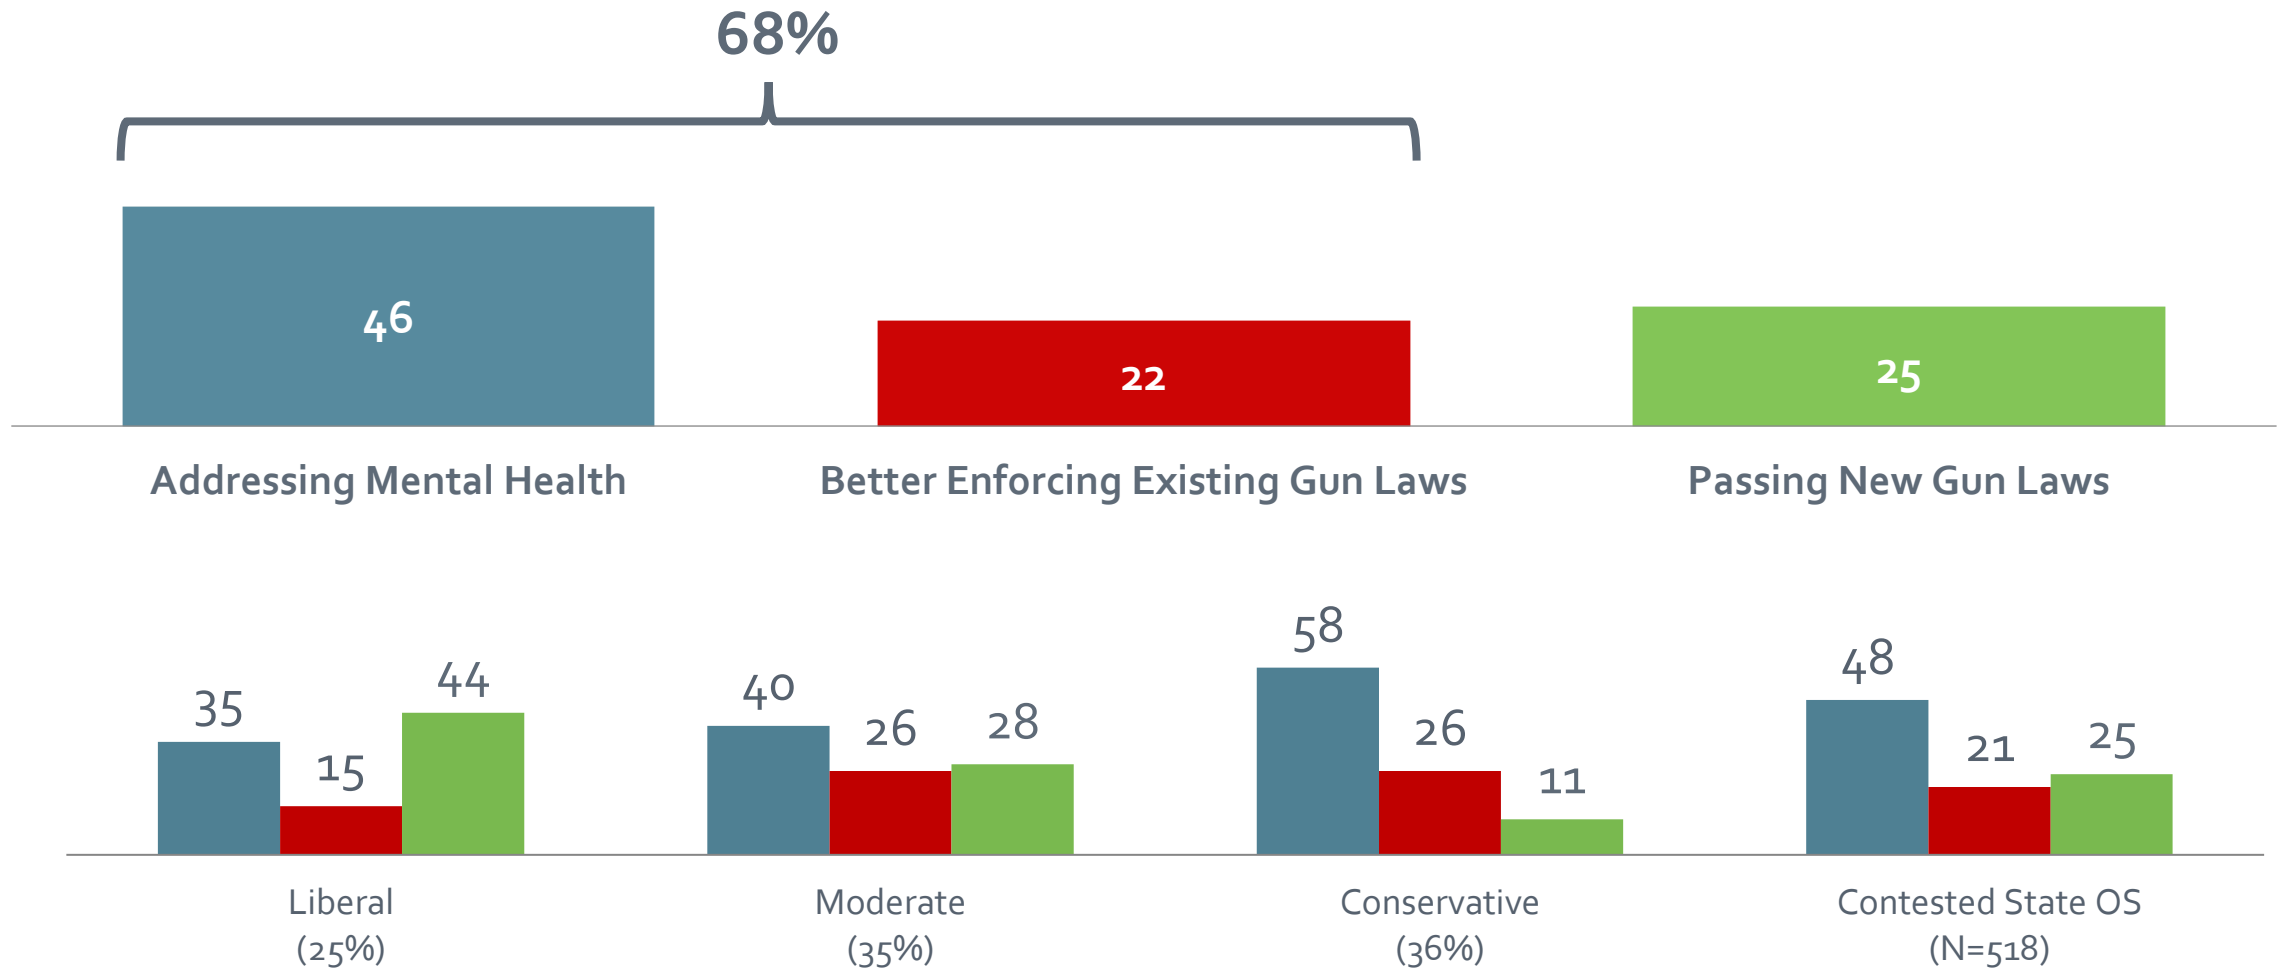

Please tell me if you agree or disagree with the following statement.

“Nearly all mass shooters share certain social ills that include fatherlessness, isolation, depression, participation in violent social media culture and near total lack of involvement in their community. That's why it doesn't matter how many gun laws we pass; mass shootings will continue until we start addressing the cultural issues driving young men to commit these horrible crimes.”

REDUCING MASS SHOOTINGS

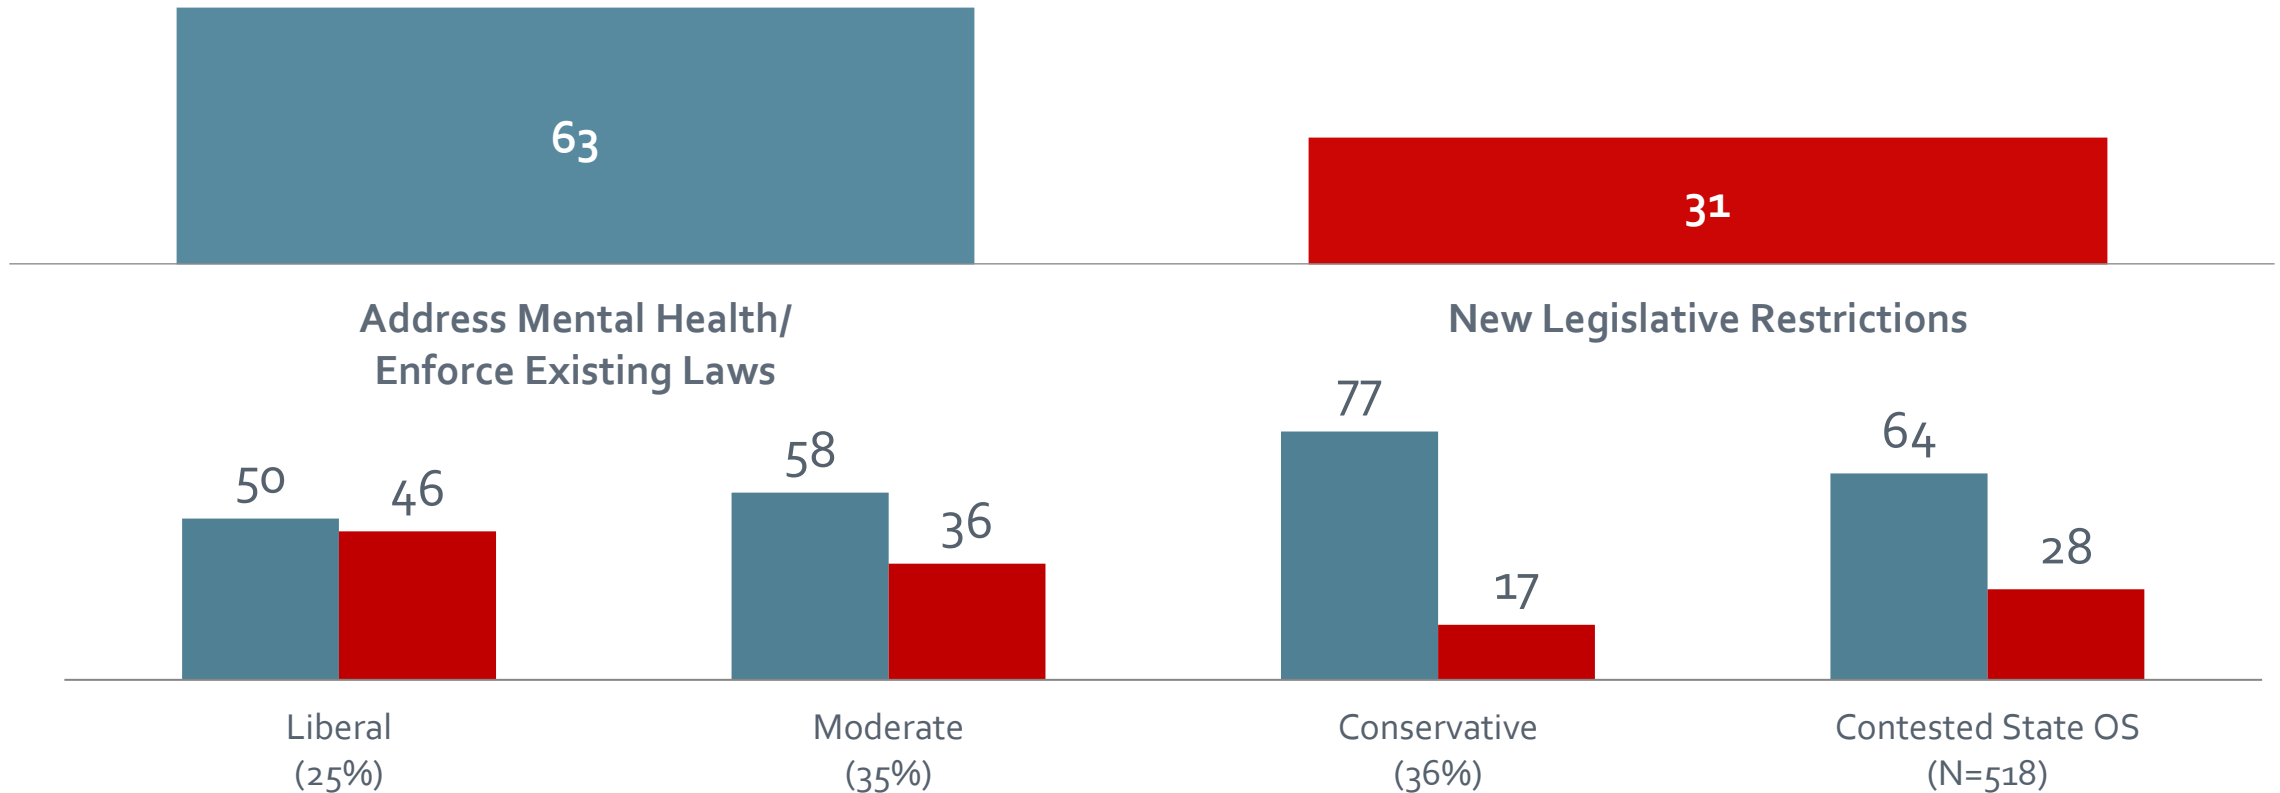

Which do you believe is most important for reducing mass shootings in America?

Which statement do you agree with most, even if neither is exactly right?

I support policy measures that address mental health, and keep those with mental illness from purchasing guns; and stricter enforcement of existing gun laws like improving background checks and screening.

I support new legislation such as banning certain types of guns, raising the legal age to buy a gun, and allowing police to take guns from people.
