CULTURAL ISSUES

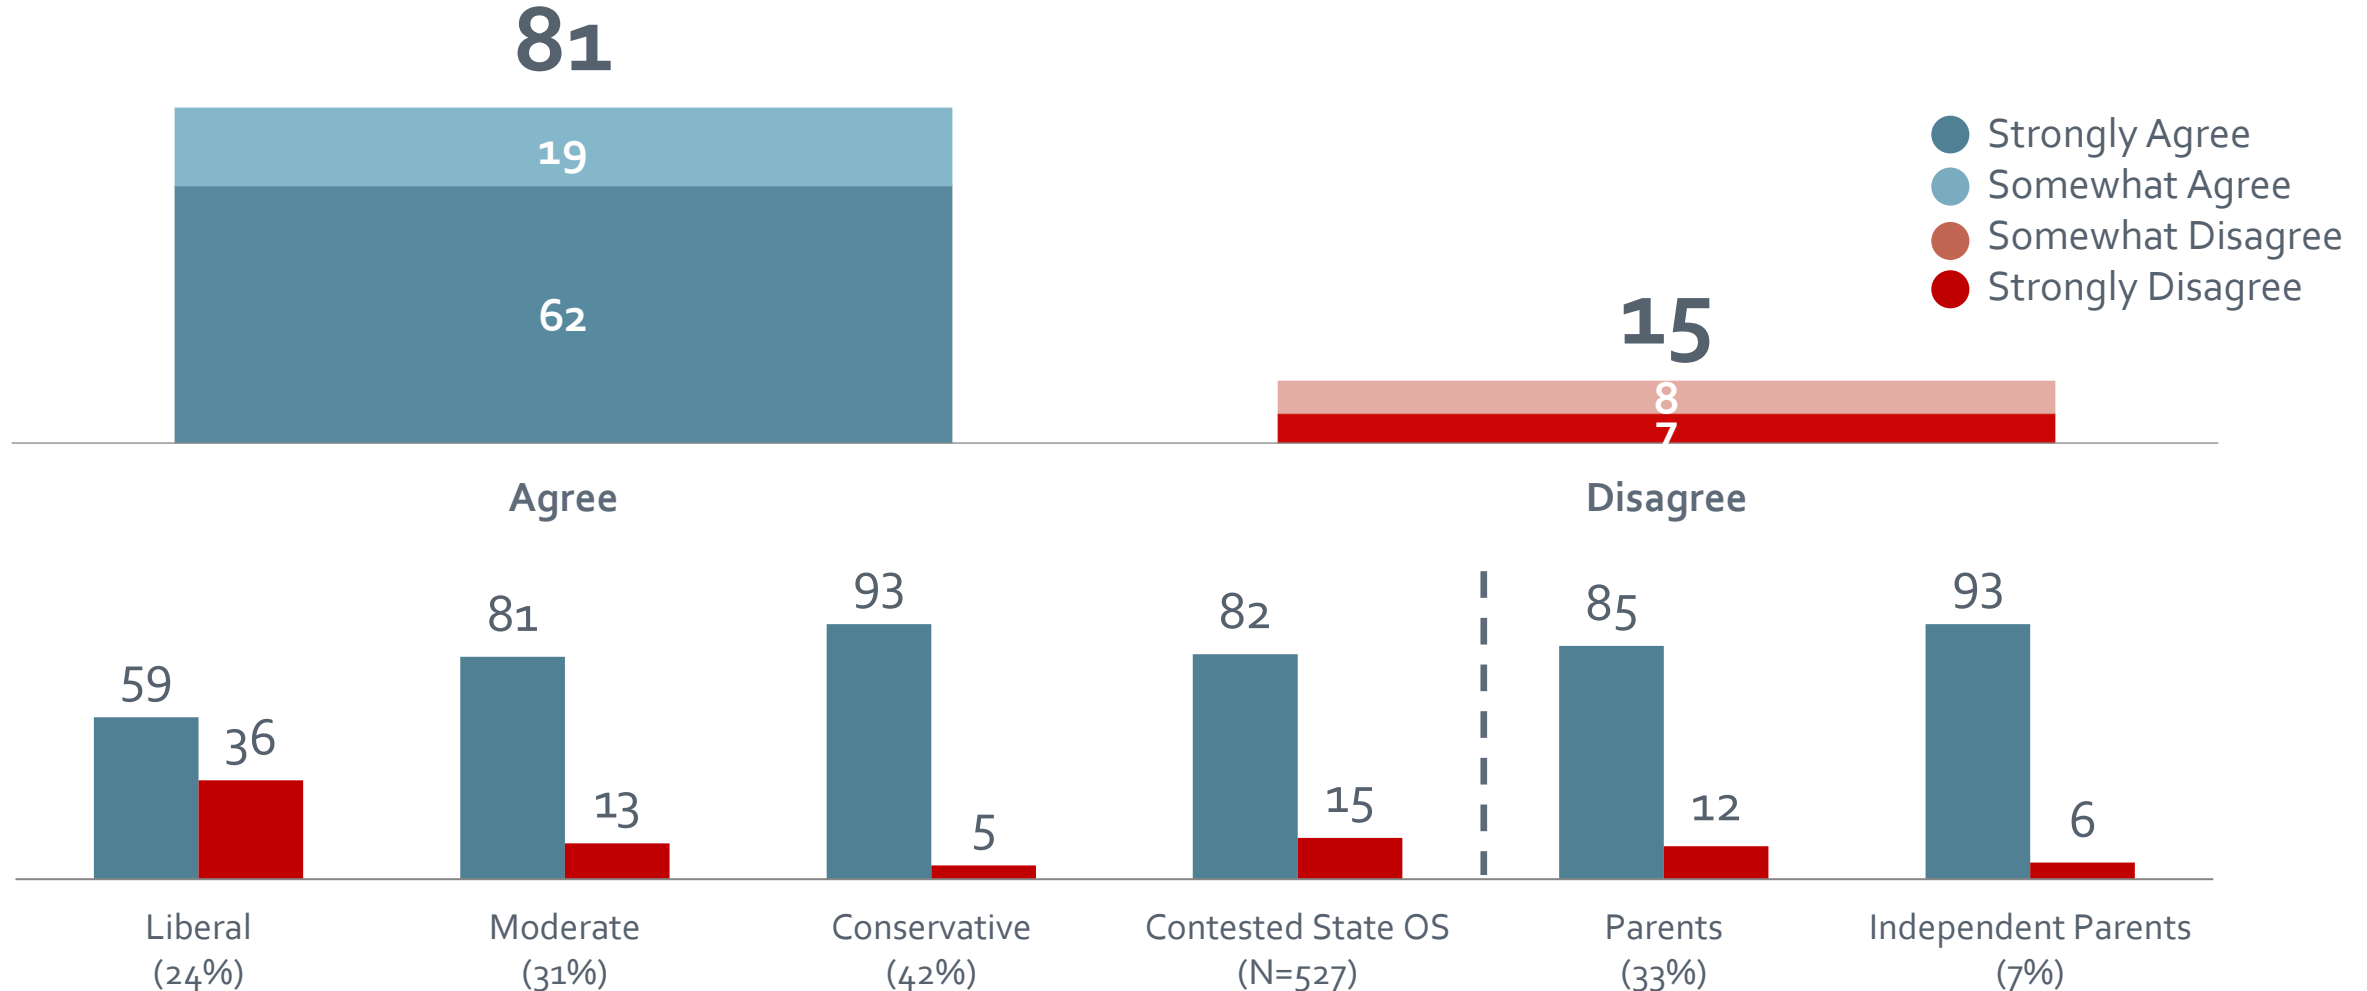

PARENTAL RIGHTS CONCERNS

Thinking about parental rights in education, how concerned are you that school boards and politicians are overruling parents on the education of their kids?

EXPOSURE TO GENDER AND SEXUALITY

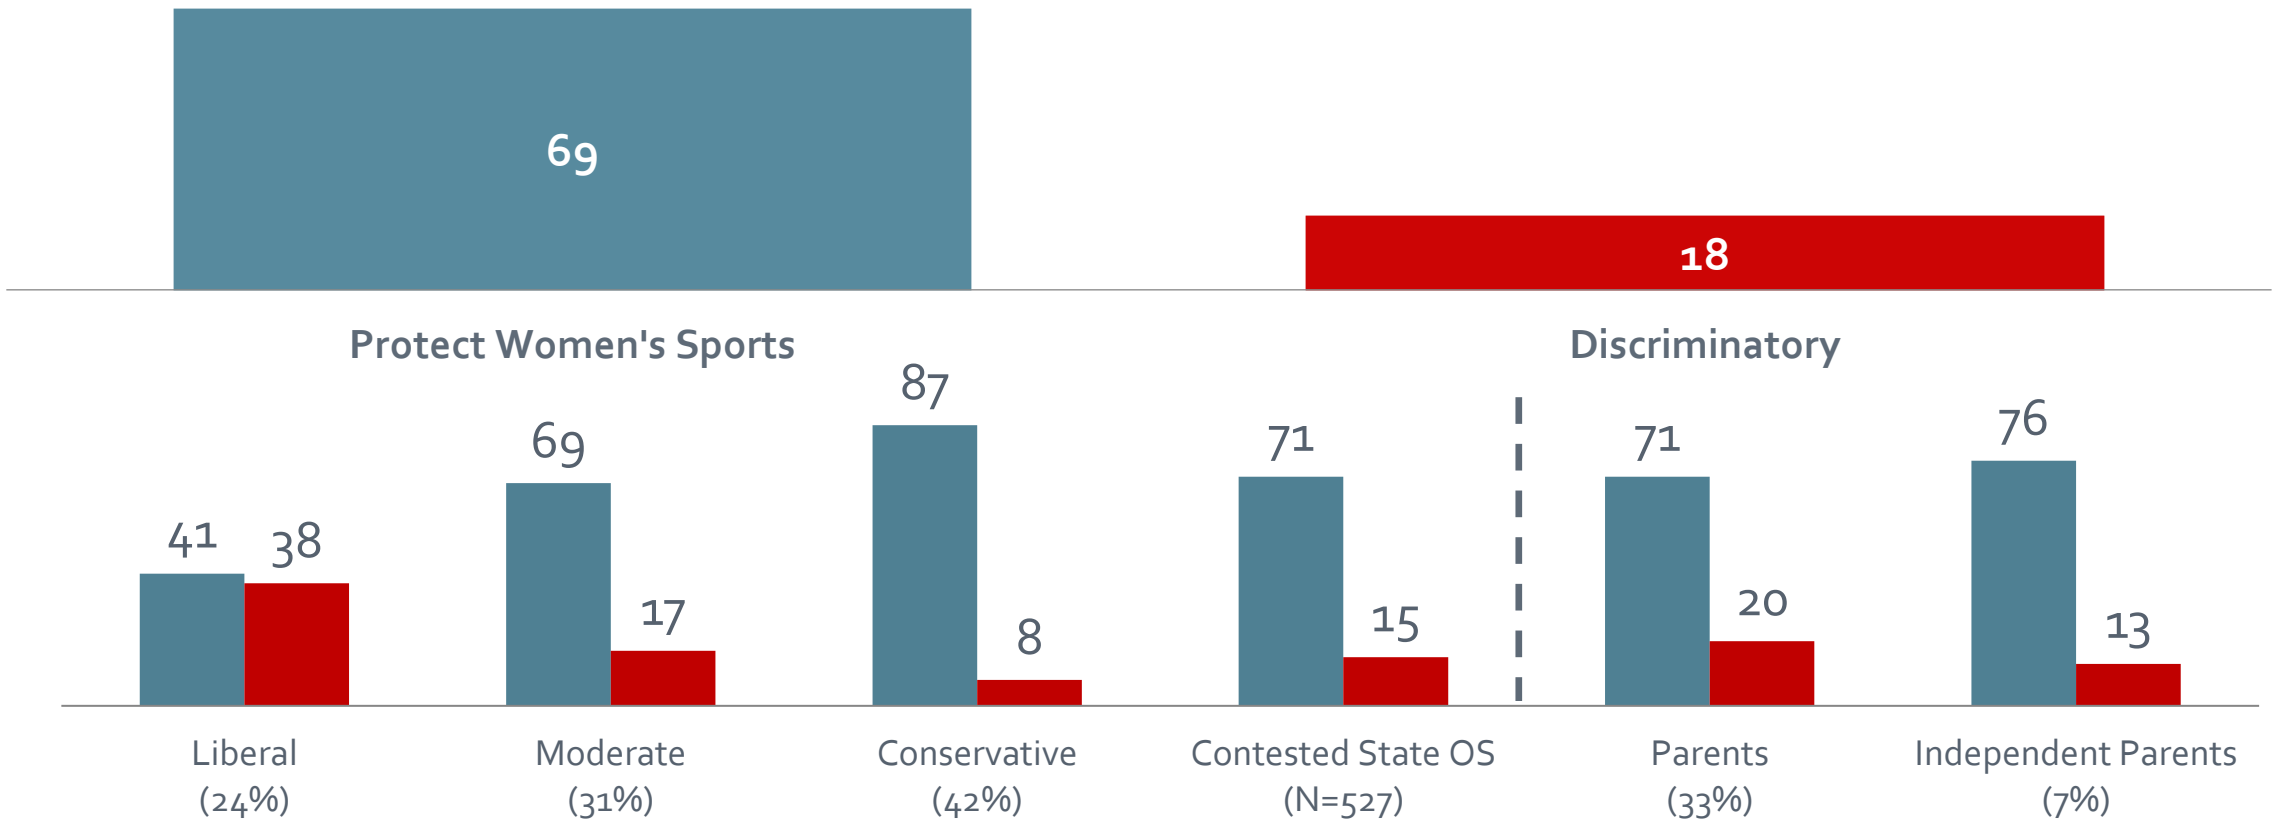

Please tell me if you agree or disagree with the following statement: Parents should be notified when their child is going to be exposed to materials related to gender and sexuality in school, and be able to decide at what age their children are exposed to these topics.

There has recently been much national debate surrounding transgender athletes participating in youth and collegiate sports. With this in mind, which of the following statements comes closest to your opinion?

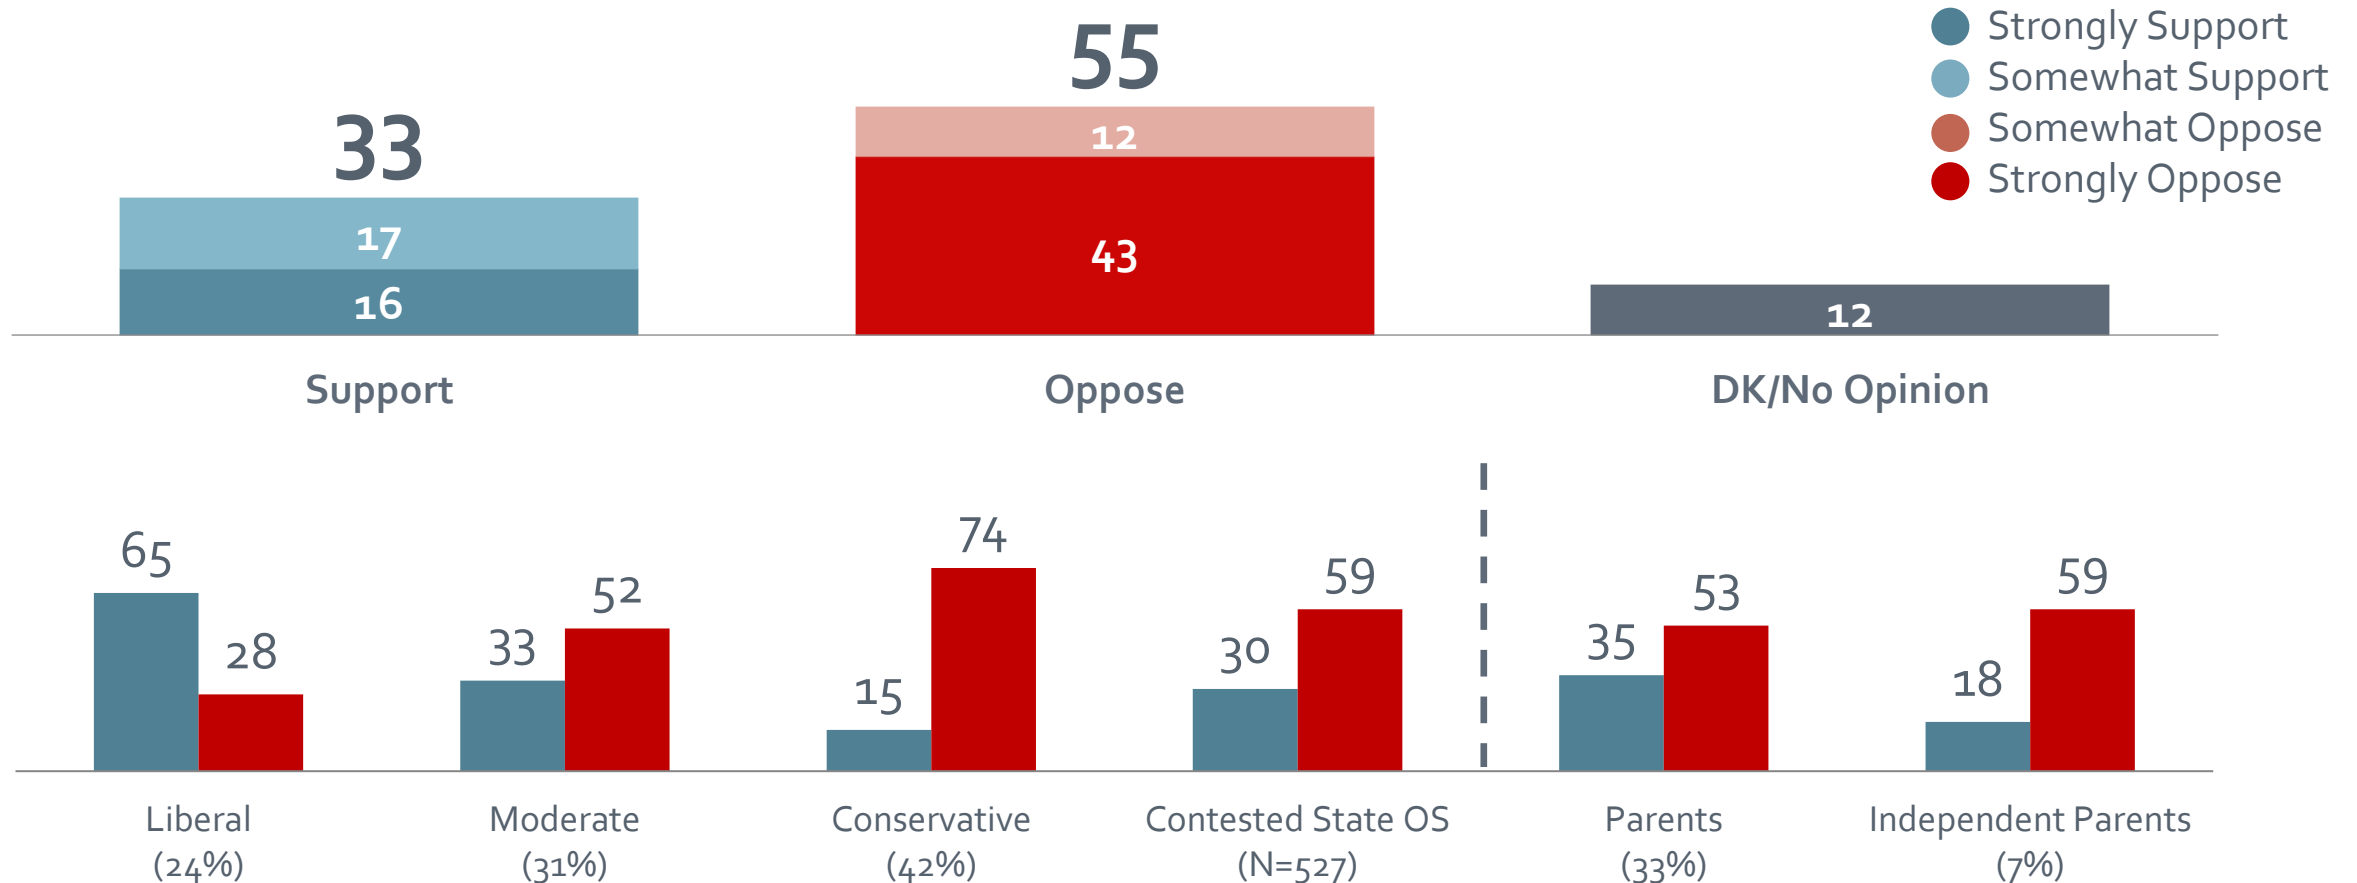

Some say that we need to protect women's sports by not allowing biological men to compete against biological women to preserve a fair playing field.

Others say that not allowing biological men who identify as women to compete in women's sports is discriminatory and does not support gender diversity.

YOUTH LGBTQ MERCHANDISING

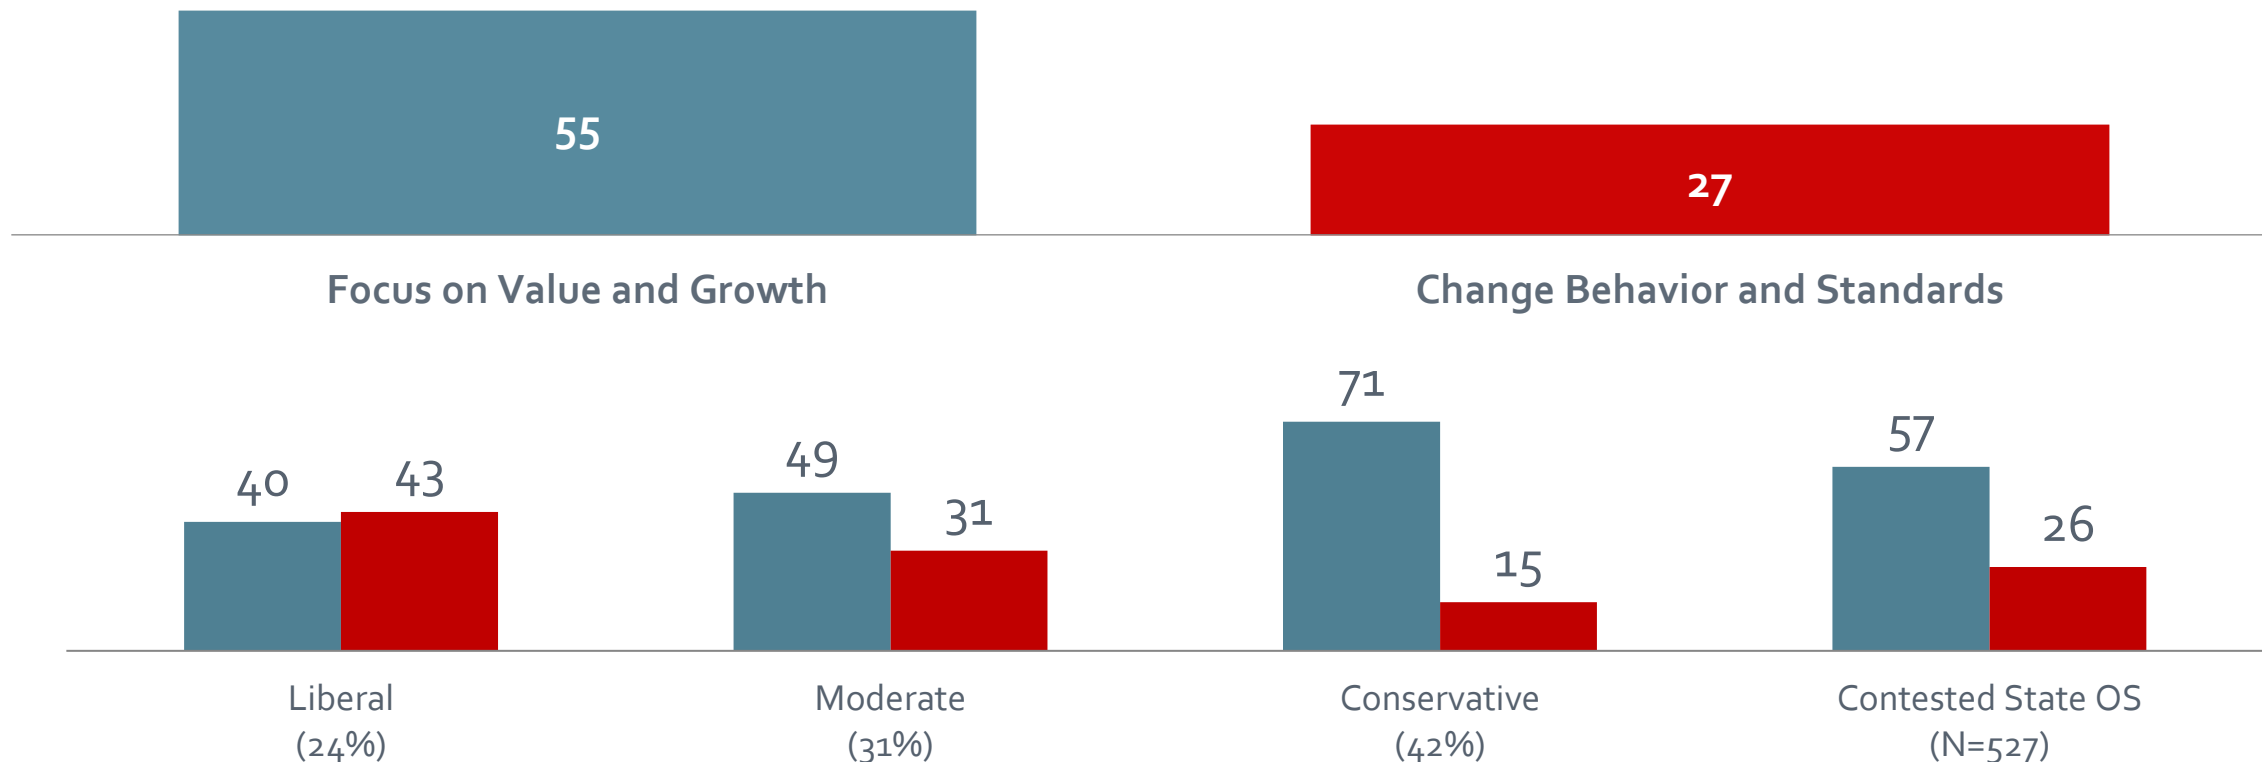

As you may know, the retailer Target recently introduced new lines of LGBTQ merchandise and bathing suits in the kids' section. Do you support or oppose companies marketing LGBTQ merchandise to children?

As you may know, BlackRock, the world's biggest asset management firm, has been pledging to focus their investing on companies whose practices meet their environmental, social, and governance (ESG) criteria. With this in mind, which of the following statements do you agree with most?

Investment firms should not manipulate which companies are profitable based on whether they align with their political agenda. They should be focused on shareholder value and promoting growth.

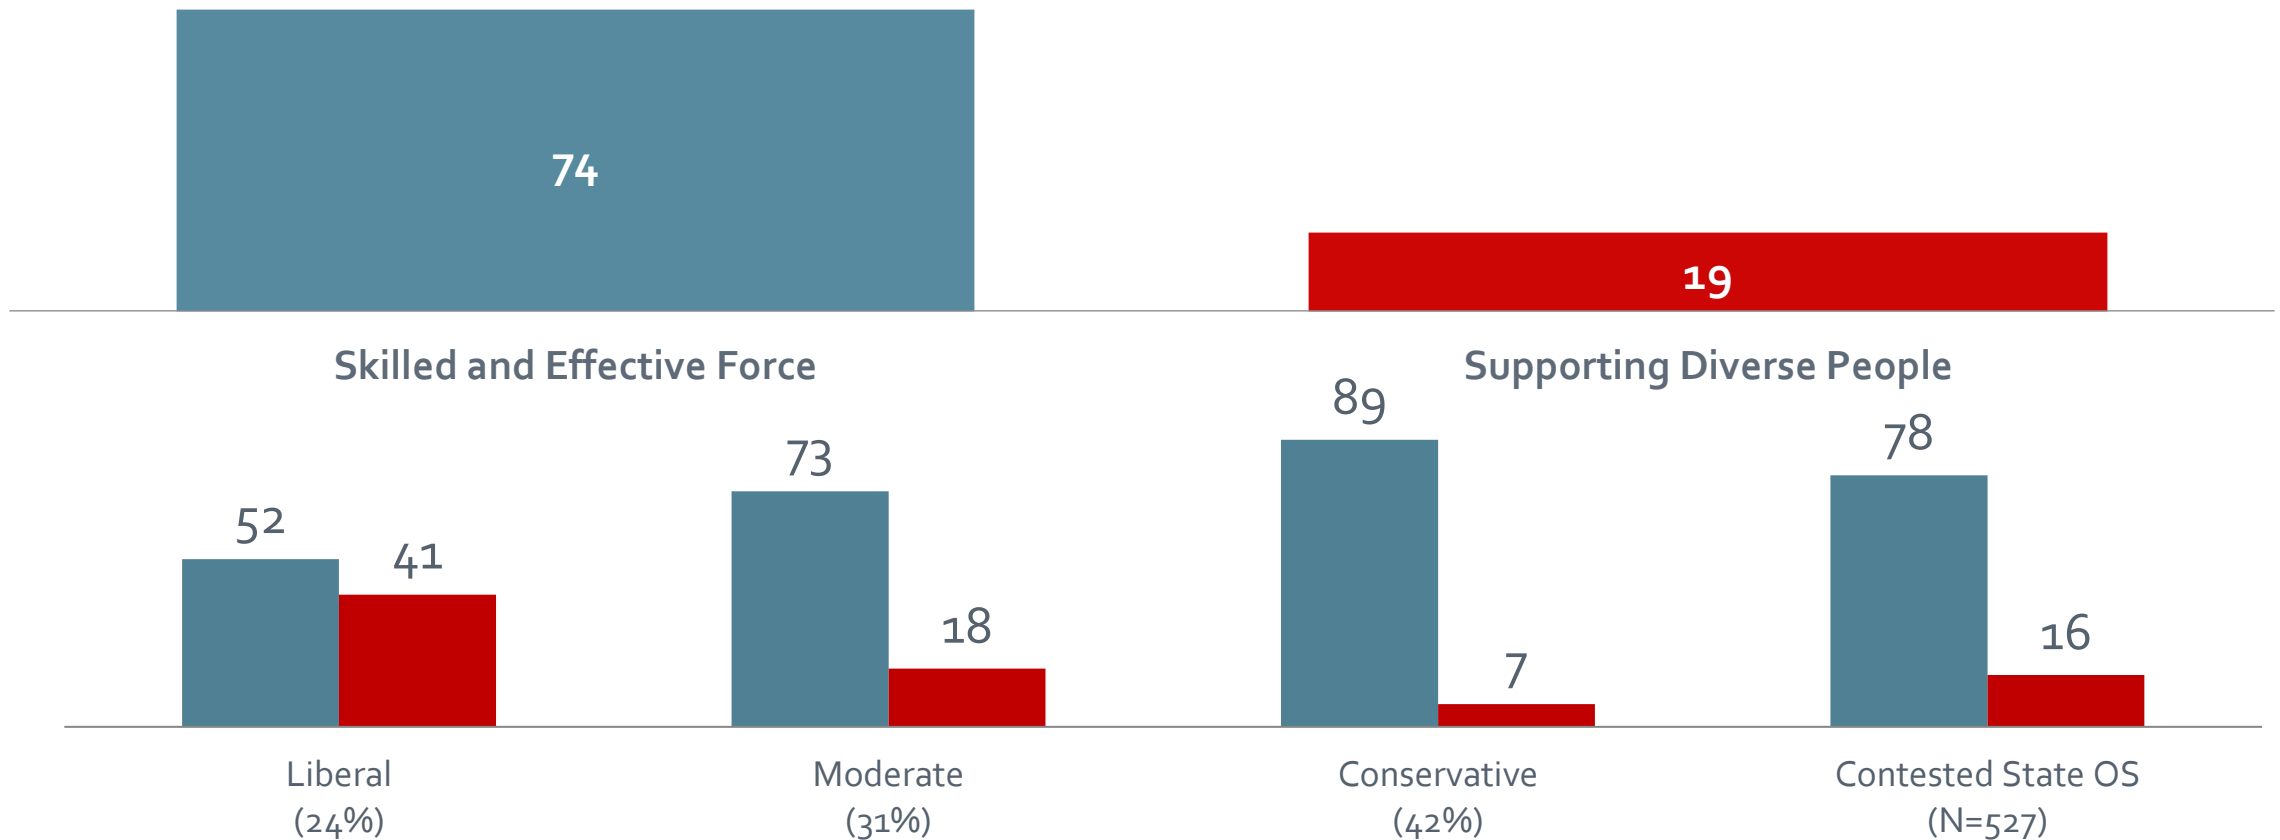

Investments should be made in companies and projects that can change behavior and promote standards, regardless of their short term implications.

Thinking about our military, which of the following statements do you agree with most?

Our military's top priority should be developing the most skilled and effective force possible to defeat our enemies and protect American interests.

Our military should focus on providing careers that support our nation's diverse people and lifestyles.

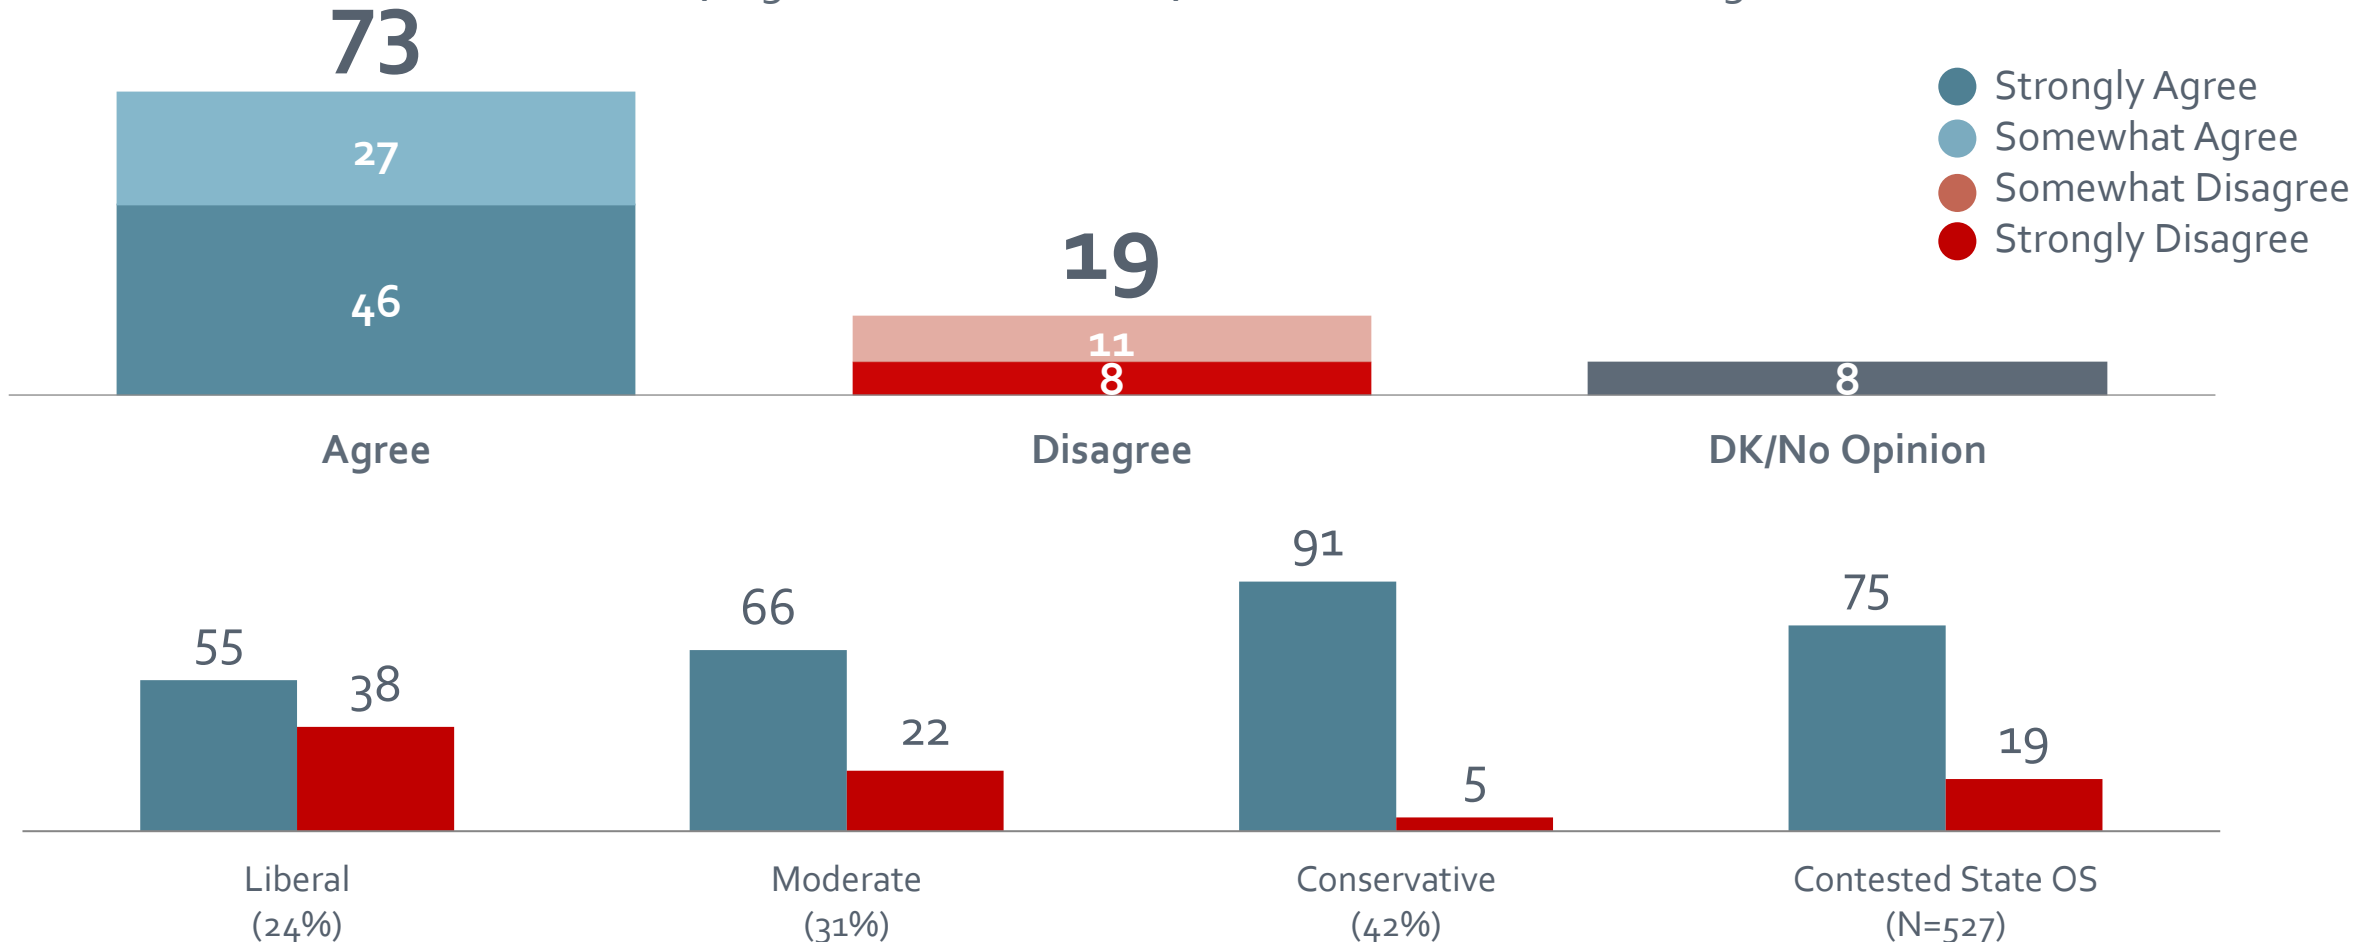

INFLATION AND INTEREST RATES

RECKLESS SPENDING CONSEQUENCES

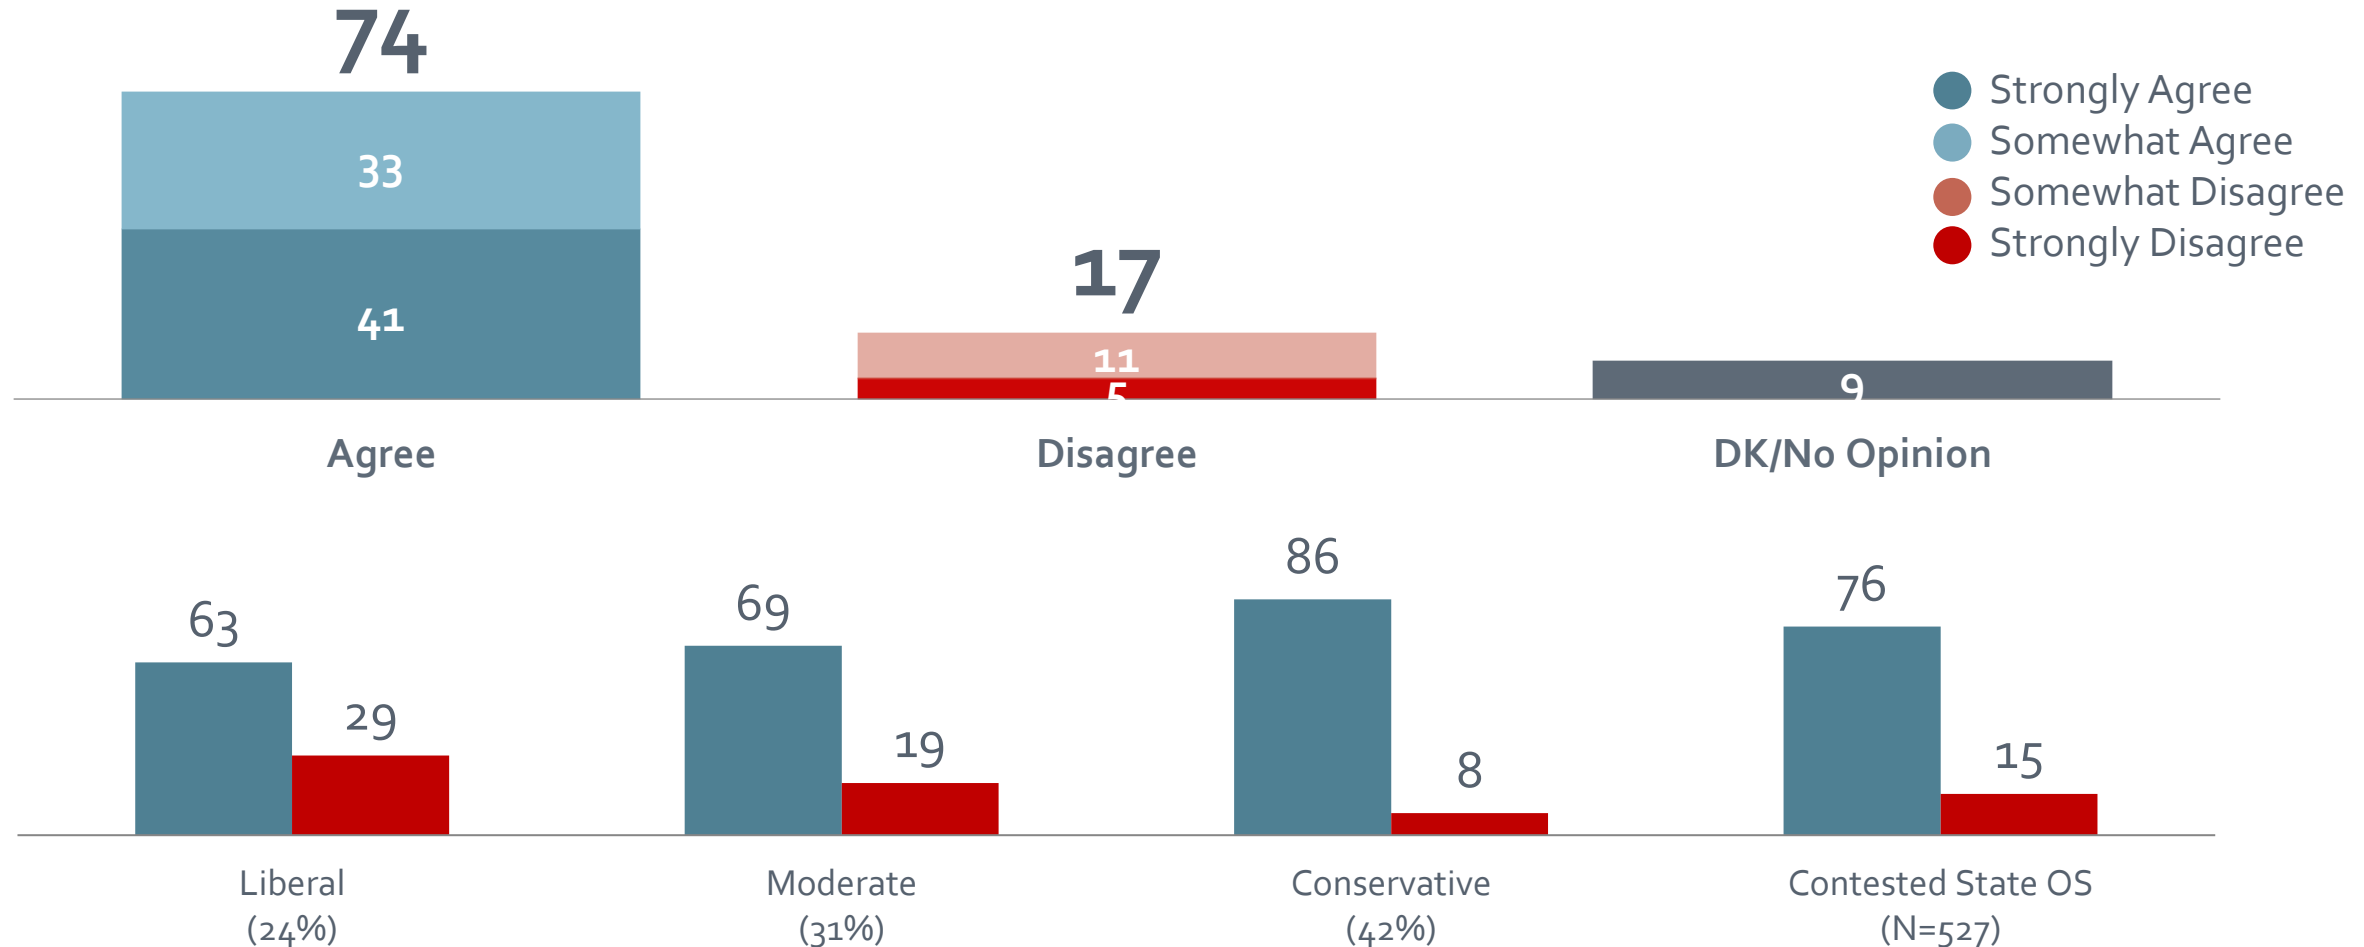

Please tell me if you agree or disagree with the following statement:

The federal government's reckless spending has driven interest rates higher in order to fight the inflation problem they created. Because of their policies, American taxpayers are feeling the burden with bank failures, higher credit card debt, and increased costs of living.

Over the last couple of years, the federal government has spent money on numerous items. Just to name a few: money to state coffers, money on infrastructure, money on student loans, money on green energy. With this in mind, do you agree or disagree with the following statement?

“Everything the government has given to Americans with their spending has been taken away by the cost of inflation.”

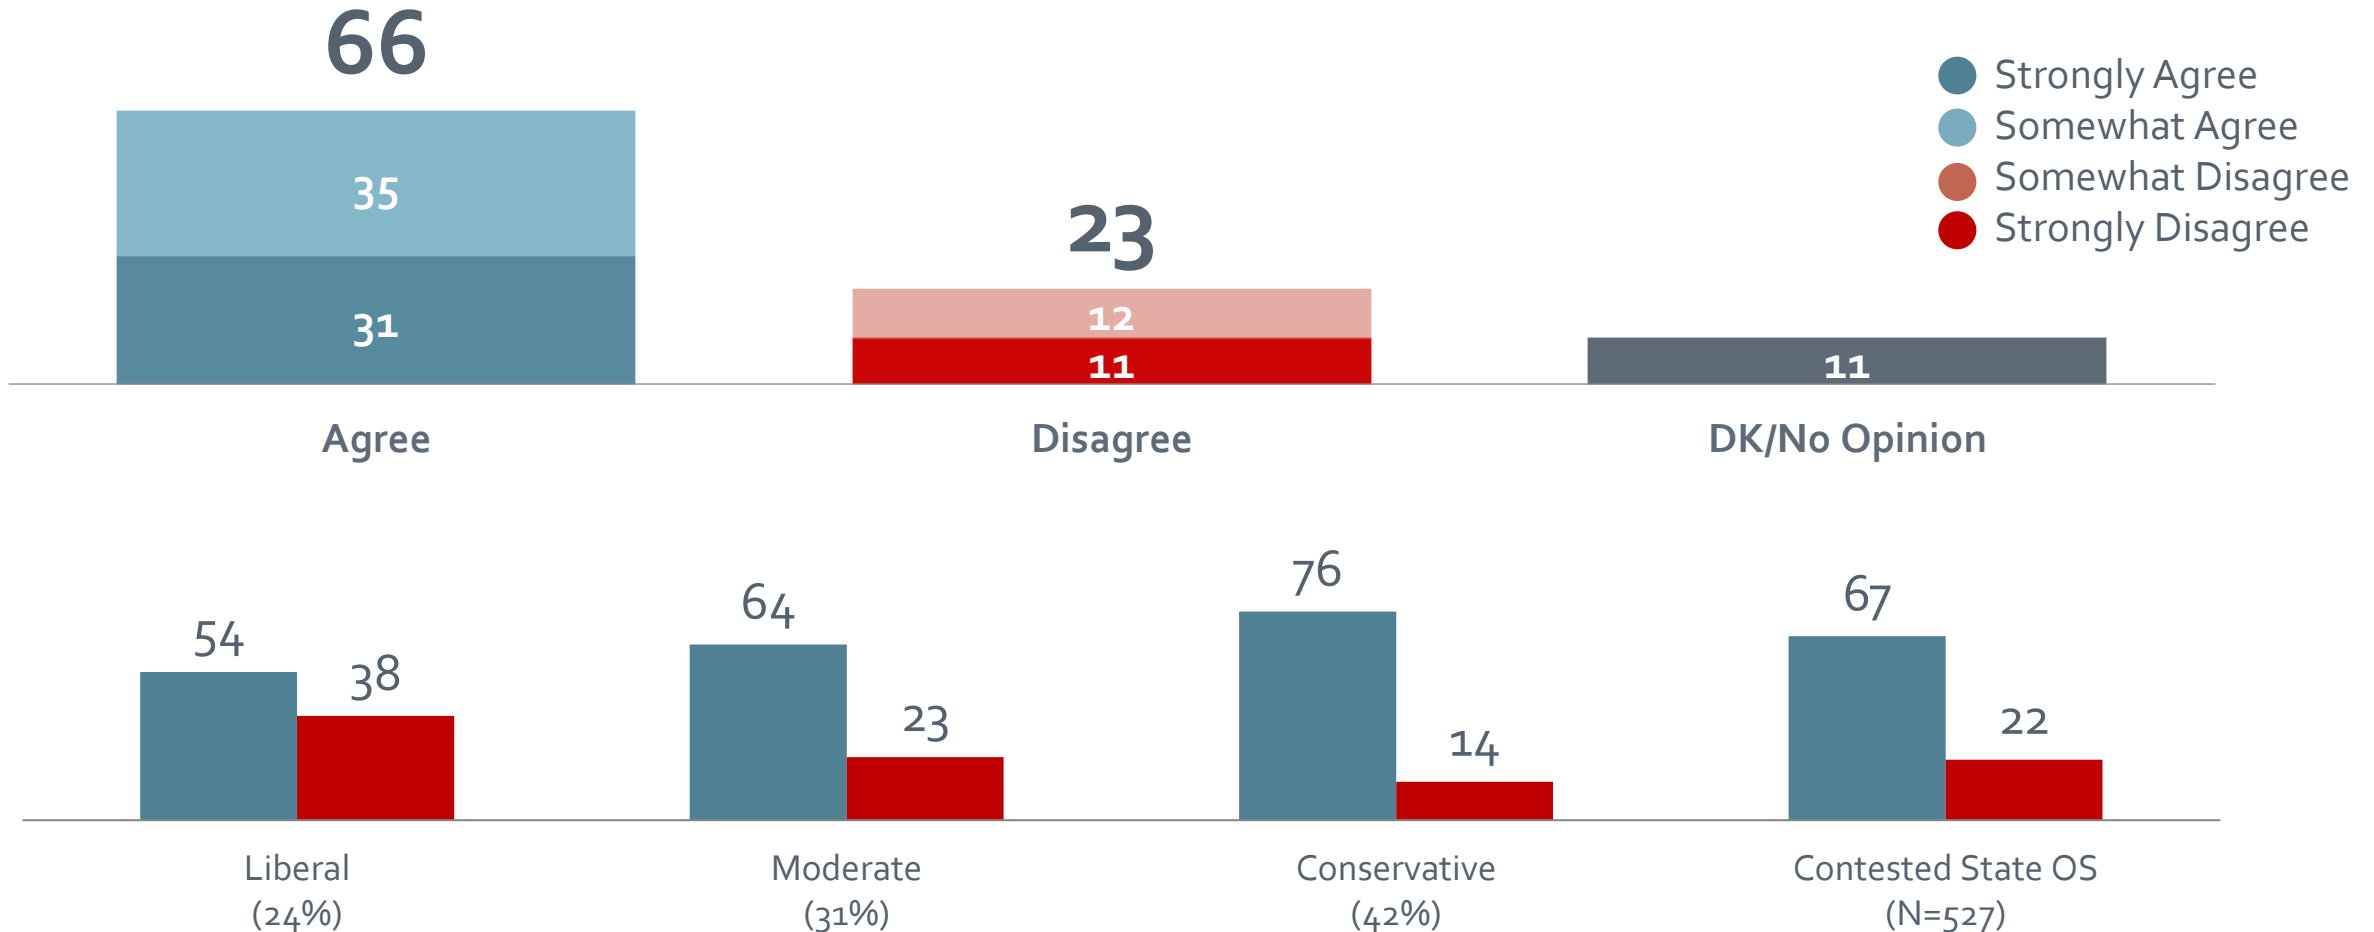

HEALTHCARE

GOVERNMENT INVOLVEMENT

Please tell me if you agree or disagree with the following statement:

We all want lower healthcare costs. But involving the government in decisions between patients and doctors reduces the availability of lifesaving drugs, could reduce innovation, and adds another unnecessary layer of bureaucracy to the healthcare field.

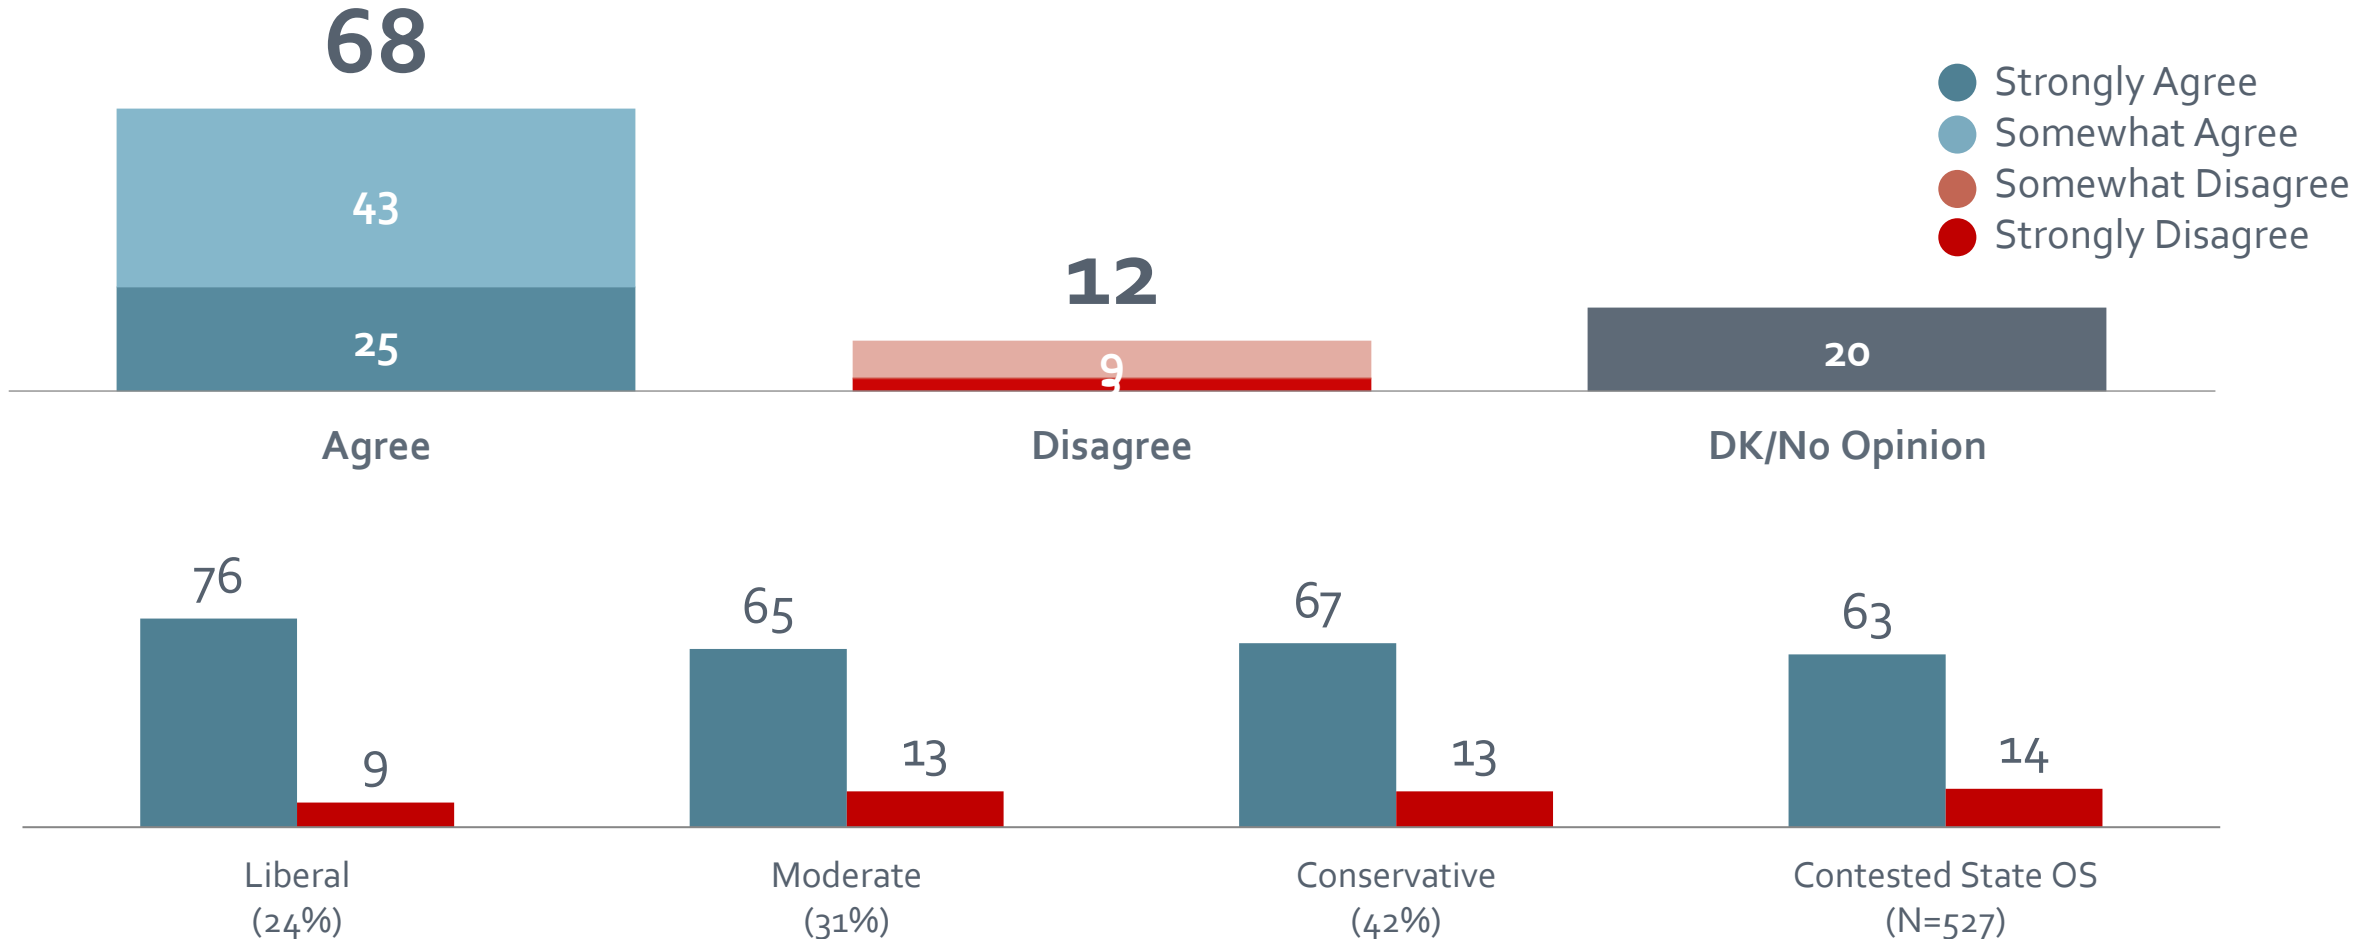

RELATIONSHIP WITH INDIA

STRENGTHEN OUR RELATIONSHIP

Please tell me if you agree or disagree with the following statement:

We should strengthen our relationship with India to help ensure we have strong allies in Southeast Asia and develop a democratic counterweight against communist China's expanding influence in global politics.
